Executive Summary

This is the 14th Semi-annual Social Safeguard Monitoring Report (SSMR) prepared for project implementation under Dhaka Environmentally Sustainable Water Supply Project (DESWSP) of the Dhaka Water Supply and Sewerage Authority (DWASA) for submission to the Asian Development Bank (ADB).

The project is funded by Asian Development Bank (ADB), AgenceFrancaise de Development (AFD), and European Investment Bank (EIB). The total project cost is 1104 million USD of which ADB contributes 390m, AFD 204.90 million, EIB 136million, and Bangladesh government 374 million. The cost of resettlement (social safeguard) has been borne by the government.

The DESWSP has a target impact (Goal) of "Improved access to and quality of sustainable water supply services in Dhaka (City)". The project aims to achieve an outcome of "More reliable and improved security of water supply and sanitation in Dhaka" and to achieve the target 'impact' through these defined outputs:

- **Output 1: New surface water supply systemdeveloped** comprises of 1,000 MLD river intake, 500 MLD water treatment works (phase 1), 22 km raw water pipeline, 14 km treated water transmission, 24 km primary distribution pipelines, and 44 km feeder pipelines (Figure2.1~~Figure2.1~~~~Figure2.1~~). [*Completion target: December 2024*]
- **Output 2: Distribution network strengthened** comprises rehabilitating 376 km of distribution networks and 32,000 household and community connections, and legalization of 3700 household and community connections at MODS Zone 6 (Figure2.2~~Figure2.2~~~~Figure2.2~~). [*Completed)*
- **Output 3: Project management and administration adequately supported.** [*Completion target: December 2024*]
- **Output 4: Empowerment of women and vulnerable groups supported**(new scope) along with the construction of at least 1,000 community toilets and bathing chambers with separate units for males/females in low-income communities in Dhaka city.[1] [Completion target: *December 2023*]

Package 3.2and Output 4 have been added as a new scope under the additional financing.

Output 1 is divided into four contract packages, such as P1 (water intake, raw water pipelines, and water treatment plant), P2 (treated water transmission pipelines), P3.1 (primary distribution pipelines), and P3.2 (feeder pipelines)

The report is prepared on Output 1 by the DWASA Project Management Unit (PMU), with the assistance of~~:~~ Mott MacDonald, the Consultant of the project~~, to assisted PMU in this regard. the DWASA Project Management Unit (PMU) in updating ADB and development partners on the implementation of the Social Safeguard Plans (Resettlement Plans) of the project.~~

The DESWSP's output 1 is delivered through several contract packages by several consultants, contractors, and NGOs under DWASA's project management unit (PMU). Mott MacDonald is responsible for the four main construction contracts through their management, design, and supervision consultancy (MDSC) contract. Under MDSC, Mott MacDonald is acting as the Employer's designer for Packages 2 and P3.1 and P3.2 and as the supervision consultant for Packages 1, 2,P3.1, and P3.2. Contractors have been appointed for P1, P2, and P3.1. The award of contract for P3.2 is under evaluation. P1 is a Design, Build & Operate (DBO) contract.

The bulk water supply system runs 36 km from the Meghna River to Dhaka, passing through Araihazar and RupganjUpazila and Madani Avenue after crossing Sitalakshya and Balu rivers. This project will use 310.71acres of land of which Dhaka WASA owns 81.53 acres (in Gandharbpur). Public land is another 46.03acres. The rest of the land (183.15acres) is privately

[1] For output 4, it will be supported by an ADF grant to strengthen access of women and vulnerable groups in underserved low-income communities (slums) of Dhaka to basic infrastructure and social services and to promote their legal empowerment.

Comment [SGB1]: This is the PMU's report, prepared with the assistance of project consultants. Please reword accordingly.

Comment [RA2]: Reworded

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

owned. The project will impact private and government land of different organizations including structures, assets, crops, fish, trees, etc.

The DESWSP falls under Category 'A'according to ADB classification based on involuntary resettlement impacts of projects. It falls under Indigenous Peoples' Category 'C' according to ADB Indigenous People's Categorization of projects. No indigenous people's householdshave been found during the surveys.

Issues of involuntary resettlement are being implemented following two national (GoB) Legislations such as Acquisition and Requisition of immovable Property Ordinance (ARIPO) 1982 – for land acquisition initiated before the 2017 Act came into force, and Acquisition and Requisition of Immovable Property Act (ARIPA), 2017, for subsequent land acquisition. In addition, ADB Safeguard Policy Statement (SPS), 2009 is being followed. Land under resettlement plans Section ~~s~~ 1 and Section 2 is being acquired following ARIPO, 1982. After repealing ARIPO, 1982, land under resettlement plans 3, 5, and 6 is being acquired following newly enacted ARIPA, 2017. ~~A Resettlement Framework (RF) was developed for DESWSP in 2013 to guide the Executing Agency (EA) in making and updating resettlement plans and implementation.~~

Comment [SGB3]: Please include proper reference to the RPs. Is this a reference to RPs for Sections 1 and 2?

Comment [RA4]: Clarified as Section 1 and Section 2.

Comment [SGB5]: Or Package 1 etc?

Comment [RA6]: Clarified as Section 1 and Section 2.

DWASA is the executing agency. PMU has a Safeguard Implementation Unit (SIU) for monitoring safeguard activities implementation. An independent External Monitoring Agency (EMA) has been engaged as a third-party monitor for Resettlement Plan (RP) implementation. To carry out the resettlement activities in P1 and P2, PMU contracted DORP, a local NGO in February 2015. Another NGO has been appointed in December 2021 for carrying out resettlement activities for P3.1 and P3.2.

For the convenient implementation of the Resettlement Plans, P1 and P2 areas were divided into 6 separate Resettlement Plan Sections (1-6). Five resettlement plans for Sections 1, 2, 3, 4 and 6 in P1 and P2 received approval and disclosed on ADB and DWASA websites. Resettlement plan for Section 2 and 5 has been updated and submitted to ADB for approval on 13.04.2022 and 22.05.2022 respectively. Due Diligence Record (DDR) P3.1 and Resettlement Plan for P3.2 received approval which isdisclosed on ADB and DWASA websites.

Land acquisition is in progress infive sections; 1, 2, 3, 5, and 6. Land in Resettlement Plan 4 is owned by DWASA. In Section 1, 99.6% of the affected persons have been fully paid (CCL and other resettlement assistance). About 93.6% of CCL payment has been completed in Section 2. In Section 3 it is 54.8%. The percentage of CCL payment is 15% in Section 5. CCL payment has not started in Section 6. However, all non-title affected persons (53 in Section 3, 260 in Section 4 and 36 in Section 6) have been paid. CCL payment is on-going in the part of Resettlement Plan Section 3 and part of Resettlement Plan Section 5 under LA case 10/2018-19. Under this LA case compensation notices have been distributed to 251 affected persons. Out of those 251, 198 affected persons from Resettlement Plan Section 3 and the remaining 53 affected persons from Resettlement Plan Section 5. There is a LA case 10/2020-21 in resettlement plan Section 5 under which 138 LA notices under section 7(1) have been distributed. Resettlement Plan 6 has a LA case 14/2020-2021. In this section 48 LA notices have been distributed to the affected persons under section 7(1).

Deputy Commissioner has handed over land to DWASA under LA Case 5/2018-19 in a part of Resettlement Plan Section 3 on 7 February 2022. Payments for the remaining affected persons are still pending due to legal issues and other unavoidable reasons. The CCL unpaid affected persons will receive CCL as soon as they submit required land documents to Deputy Commissioner's office. DWASA has deposited the estimated CCL amount to Deputy Commissioner's Public Account of Republic for the affected persons who are yet to receive CCL. All affected persons who received CCL also received full resettlement assistance which they are entitled to from DWASA. Affected persons who are yet to receive CCL will also receive other applicable resettlement assistance according to the entitlement matrix. PMU has deposited more than ~~full estimated~~full estimated amount of BDT BDT 90,000,000for payment of resettlement assistance in a dedicated account. The required amount for paying resettlement assistance will be kept intact until the last affected person has been paid.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

DORP is motivating affected persons by personal contacts, community meetings, announcements, leaflet distribution, etc. to resolve CCL unpaid affected persons'problems and receive compensation.

ADB provided sectional approval for second priority mouzas (4 km of Resettlement Plan Section 2) on 21 February 2022. Accordingly, DWASA has handed over land [2nd 4 km i.e., 10-14 km of raw water pipeline (RWP)] to the DBO contractor. The Contractor is doing civil works in Section 2. There are government landsin the part of Resettlement Plan Section 3 and section 6. Required payments for non-title holders have been completed in these two sections.ADB provided concurrence to start civil works on 5 km long Bangladesh Water Development Board (BWDB[2])'s land which situated in P1 (3km) and P2 (2 km) area. PMU handed over scattered 3 km of BWDB land to P1 contractor. PMU also handed over remaining 2 km of BWDB land (from WTP to east bank of Shitalakshya to the P2 contractor. The contractor has not started civil works here. Moreover, ADB gave concurrence to start the civil works in Madani Avenue[3] (5.5 km, part of RP Section 6) part of treated water pipe alignment. The contractor has started civil works. DWASA has submitted a due diligence report (DDR) for LA case 5/2018-19 to get concurrence from ADB to start civil works on 3 km of Resettlement Plan Section 3.

There are 268 vulnerable affected persons have been paid during this reporting period. No LIRP training was imparted in this reporting period.

In addition to regular personal contact, in this reporting period, DORP has conducted 96 community meetings. The total number of participants was 1025 (367male and 658 female). In addition, 2 public consultation meetingswereconducted with 135 participants of which 19 were female. Key discussion points were: papers required in receiving compensation from Deputy Commissioner's office and additional payment/other resettlement benefits from DWASA,Affected Persons' entitlementspayment for loss of business, trees, etc., determination of the present market value of lands, payment for affected persons with land disputes, livelihood training, unpaid CCL issues, Job opportunities in project's civil works, seeking support from the affected persons in ongoing/ensuing project construction works,etc.

Two (2) Grievance Redress Committee (GRC) meetings have been held during this reporting periodfor Resettlement Plan Section 3, 4 and 6. In these 2 meetings 8cases from 8 affected persons have been heard regarding loss of business income, loss of structure and wage loss. The8 affected persons have been advised by GRC for payment. All of them received payment.

Major tasks that need to be accomplished over the next SSMR period:

- Approval and disclosure of resettlement plans for 5;
- Following up with Deputy Commissioner's office in serving Land Acquisition notices under Section 8(3)(ka) in Resettlement Plan part of 5 and 6;
- Collecting estimate of payable compensation from the Deputy Commissioner's office;
- Following up with Deputy Commissioner's office to facilitate payment in all the Sections, except Section 4;

Preamble

The Asian Development Bank approved a loan amounting to $250 million equivalent from its Special Funds resources for Dhaka Environmentally Sustainable Water Supply Project on 22 October 2013. Subsequently, Loan Agreements between the Government of Bangladesh and each of Asian Development Bank, Agence Française de Développement, and European Investment Bankwere signed on 24 April 2014, 29 January 2015, and 30 June 2014, respectively.

Dhaka Water Supply and Sewerage Authority, on behalf of the Government of Bangladesh, is the executing Authority of the project.

DWASA presents this 14th Semi-annual Social Safeguards Monitoring Report (Semi-annual SSMR) in compliance with the requirement of paragraph 91 of item B. Monitoring under Section IX. Performance Monitoring, Evaluation, Reporting, and Communication of the Project Administration Manual (PAM) (December 2020).

The contents of this report, as outlined in Appendix 13 of the PAM, are

- Executive Summary
- Background of the Report and Project Description
- Scope of Impacts
- Compensation and Rehabilitation
- Public participation and consultation
- Grievance Redress Mechanism (GRM)
- Institutional Arrangement
- Monitoring Results – Findings
- Compliance Status

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Background of the Report and Project Description

2.1 Background (/context) of the Report

According to the ~~Resettlement Framework~~Project Administration Manual -(ref Appendix C - copy of Appendix 13 of the PAM), the Project Director has to submit to ADB, a semi-annual report on the status of implementation of safeguard plans and progress made towards the desired outcomes of the project in compliance with the ADB Safeguard Policy Statement (2009).

PMU has prepared this report as a deliverable to ADB. MDSC assisted PMU in compliance with the Clause no. 18 (iii) of the Terms of Reference for the Management, Design and Supervision Consultant (MDSC) - Mott MacDonald to assist the Project Director in reporting to ADB on the status of implementation of 'Social Safeguard Plans', which are termed as 'Resettlement Plans' for the DESWSP.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

2.2 DESWSP Components

The DESWSP comprises,

i. (Source/Intake) development, water treatment, and distributionpipelines, comprising: 1,000 MLD river intake, 500 MLD treatment works (phase -1),22 km raw water and14 km treated water transmission pipelines, 24 km primary distribution pipelines, and 42 km of feeder pipelines to northern Dhaka;
ii. (Services) distribution network strengthened, comprising: rehabilitating 376 km of distribution networks and 32,000 household and community connections, and legalization of 3700 households and community connections at MODS Zone – 6;
iii. Construction of at least 1,000 community toilets and bathing chambers with separate units for males/females in low-income communities in Dhaka city (added in 2020).

Figure2.1:Source- Surface water treatment and transmission

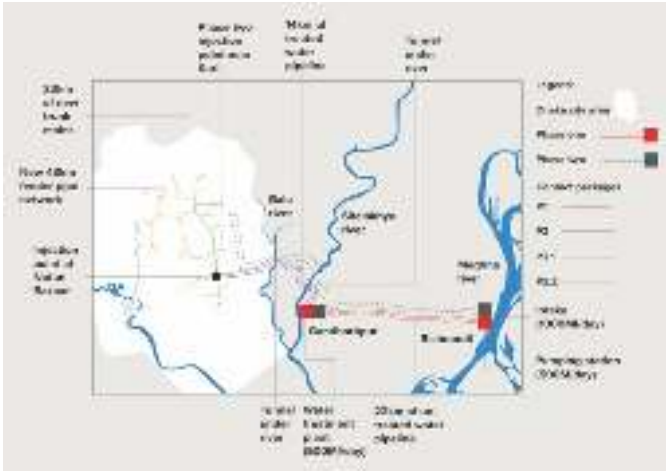

Figure2.2:Services – distribution network strengthened

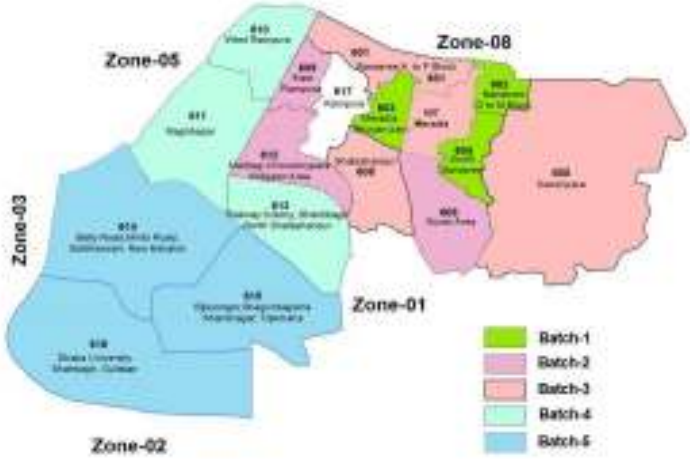

This report covers implementation progresses of the 'Social Safeguard Plans; for Output 1: New surface water supply system developed (ref: **Figure 2.1**) out of 4 defined outputs (detailed below) of the DESWSP.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

2.3 Project Description

The Dhaka Environmentally Sustainable Water Supply Project (DESWSP) has a target impact (Goal) of "Improved access to and quality of sustainable water supply services in Dhaka (City)".

The Project's Design Monitoring Framework defined an outcome of "More reliable and improved security of water supply and sanitation in Dhaka" resulting from the project achieving the targeted 'impact'. The DMF defined the following additional outputs to achieve the 'outcome':

- **Output 1: New surface water supply system developed (Figure2.1~~Figure2.1~~~~Figure 2.1~~);**
- Output 2: Distribution network strengthened (**Figure2.2~~Figure2.2~~~~Figure 2.2~~**);**
- Output 3: Project management and administration adequately supported; and
- Output 4: Empowerment of women and vulnerable groups supported.

Output 4 was added with the proposal for additional funding in 2020.Implementation of Outcome 4 will commence upon loan effectivity.

2.3.1 Output 1: New surface water supply system developed

The Social Safeguards Plans, this report covers, for the components (indicators) of the 'new surface water supply system developed' are described hereunder.

Package 1: River intake, raw water pipeline, and Gandharbpur treatment plant

- 1000 MLD river intake in the ~~Meghna river~~Meghna River at Bishnandi, AraihazarUpazila, with a 500MLD raw water pumping station, stand-by power supply station, workshops, offices, and accommodation for DWASA staff.

Figure0.3: 3D view of ~~Meghna river~~Meghna River Intake

Figure0.4: 3D view of Water Treatment plant

- 22km raw water transmission pipeline (twin 1600 mm pipes sized for 500MLD) through rural areas with an access road beside from the river intake to the water treatment plant (**Figure2.1~~Figure2.1~~~~Figure2.1~~**). and
- 500 MLD surface water treatment plant (WTP) at Gandharbpur, RupgonjUpazila, with storage reservoir, treated water pumping station, standby power supply, workshop, chemical storage, offices, and accommodation for DWASA staff (**Figure2.1:Source- Surface water** treatment and transmission**~~Figure2.1:Source- Surface water~~** treatment and transmission**~~Figure2.1:Source- Surface water~~**~~treatment and transmission~~**)**.

Package 2: Treated water transmission pipeline to Dhaka

Construction activities of P2 will take 36 months. The construction will include:

- 14 km treated water transmission pipeline (twin 1600mm pipes) from Gandharbpur WTP to Dhaka (Vatara junction on Madani Avenue, at Natun Bazar near the American Embassy), where it connects to the P3.1 pipeline (**Figure2.1**~~**Figure2.1Figure2.1**~~).
- Two under-river tunnels for the pipeline: one at Murapara - Isakhali under the Sitalakhya river, and one at Beraid under the Balu river (**Figure2.1**:Source- Surface water treatment and transmission~~**Figure2.1**:Source- Surface water treatment and transmission**Figure2.1**: Source- Surface water treatment and transmission~~)

Figure0.5: 3D view of a River Crossing

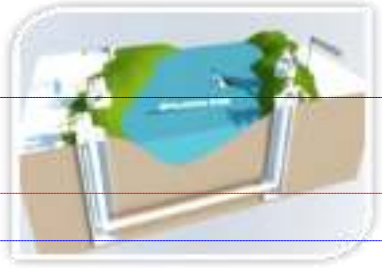

Figure0.6: 3D view of a large diameter Pipeline

Package 3.1: Primary distribution pipelines in Dhaka

Construction activities of P3.1 will take36 months. Theconstruction will include:

24 km of large diameter pipes of 0.8m to 1.6m diameter, all under major Dhaka highways to transfer the potable water to the P3.2 feeder pipelines (**Figure2.1**~~**Figure2.1Figure2.1**~~).

Package 3.2: Feeder pipelines distribution in Dhaka

Construction activities of P3.2 will take 30 months. The construction will include:

42 km of feeder pipes from 350 to 800mm diameter, all under Dhaka roads, to deliver water to the District Metering Areas (DMAs) that feed individual water supply zones of Dhaka City (**Figure2.1**~~**Figure2.1Figure2.1**~~).

2.3.2 Project Cost

The overall cost including additional funding of the DESWSP stated in the 1st December 2020 Aide Memoire is US$ 1 104.9 million as summarized in Table 2.1: Funding of project~~Table 2.1: Funding of project~~~~Table 0.1: Funding of project~~.Additional funding is still being finalized between GoB and Financiers.

2.3.3 Project Completion Targets

The revised project completion target, as agreed during November 2020 ADB Mission, is December 2024. The target dates toachieve the project outcome and outputs are given below.

Table0 2.2: Project completion target dates

Outcome:	More reliable and improved security of water supply and sanitation in Dhaka		December 2025
	Output 1:	**New surface water supply system developed**	**December 2024**
	Output 2:	Distribution network strengthened	Completed
	Output 3:	Project management and administration adequately supported	December 2024
	Output 4:	Empowerment of women and vulnerable groups supported	December 2023

2.3.4 Output 1 Implementation Progress

At the end of the reporting period, the engineering works progress of various components of the Output 1: New surface water supply system developed are as below:

Package 1: River intake, raw water pipeline, and Gandharbpur treatment plant

Construction Component	Progress	Time elapsed[4]	Comments
Construction (Overall)	**59.2%**	**67.5%**	**8.3% delay**
Intake (River)	54.7%	70.5%	15.8% delay
Water Treatment Plant	67.8%	70.1%	2.3% delay
Raw Water Pipeline	39.6%	43.9%	4.3 delay

***Source**: MDSC QPR Q2 2022*

Package 2: Treated water transmission pipeline to Dhaka

Construction Component	Progress	Time elapsed	Comments
Pipeline Construction (Section-C)	10.55	13.7%	3.15% delay
Pipeline Construction (Section-B)	-	-	
Pipeline Construction (Section-A)	-	23.0%	Yet to start

2.4 Social Safeguards Categorization of the Project

2.3.1 Involuntary Resettlement Categorization

Considering the extent of the significance of involuntary resettlement impacts, ADB has classified projects into four categories; A, B, C, and FI. The DESWSP falls under Category A as there would be 200 or more persons physically displaced from home and/or lose 10% or more of their productive and/or income-generating assets.

2.4.2 Indigenous People's Categorization

The DESWSP falls under Indigenous People's Category C as there noIndigenous People's household has been found during the socioeconomic household surveys.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Scope of the Social Safeguards Impacts by the Project

A single Resettlement Plan for the project was prepared in 2013 covering the then identified three packages P1: River intake, raw water pipeline, and Gandharbpur water treatment plant, P2: Treated water transmission pipeline to Dhaka, and P3: Distribution Reinforcement Pipeline. At a later stage, during detailed design~~ing~~, package P3 was divided into two, namely, P3.1: Primary distribution pipelines in Dhaka and P3.2: Feeder pipelines distribution in Dhaka.

The Resettlement Plan identified that the project has major impacts on both private and public lands, and other assets such as structures, livelihoods, crops, and trees.

A single Resettlement Plan for the DESWSP, covering areas required for Output 1 (P1, P2, P3) and ICB 2.7 under Output 2, was prepared in 2013, which identified major impacts on lands, the scope of land acquisition, and other resettlement impacts based on the design of the project. The areas of P1 and P2were subsequently divided into 6 sections to facilitate the Resettlement Plan implementation. The packages P1 and P2 require a total of 310.71acres of land where a total of 183.15acres privately owned lands and 46.03acres of public-owned except water treatment plant. DWASA owns the required land (81.53 acres) for the water treatment plant.

P3.1 and P3.2 run through the developed lands (roads) of Dhaka North and South City Corporations. No land acquisition is required for these packages rather necessary permission to work through the alignment would be sorted from the City Corporations.

Due Diligence Report (DDR) for P3.1 has been approved and disclosed by ADB in February 2020. PMU with the assistance of MDSC prepared Resettlement Plan for P3.2 as temporary impacts (temporary income losses to shop owners/vendors and employees) were found due to laying of the feeder pipelines for an estimated period of 14 days in one of the pipe routes. ADB has provided no objection on 15 May 2020. This RP has been prepared during loan processing for additional financing.

According to the design for the implementation of P1 and P2, water intake sits on only private lands that needed land acquisition; the Water treatment plant is situated on DWASA's own lands (81.50 acres). A few squatters were identified on this land. All the squatters have been compensated. DWASA has received permission from the BWDB to use the required 24.8750 acres of land of the alignment. A Memorandum of Understanding (MoU) has been signed between BWDB and DWASA on 21 December 2021. DWASA has also received permission from RAJUK[5] to use 5.5 km land for installation of treated water pipelines. The remaining required public lands require the acquisition and/or securing permissions from various government and semi-government/autonomous organizations.

Later, for easy management and implementation of Resettlement Plans, the whole area, required by the packages P1 and P2, is divided into 6 sections as detailed below:

- RP Section 1: Water Intake Area
- RP Section 2: Intake to Baliapara (Raw water pipeline)
- RP Section 3: Darikandi Chak to Murapara via Gandharbpur WTP (Part of Raw water pipeline+part of treated water pipeline)
- RP Section 4: Water Treatment Plant (WTP) at Gandharbpur
- RP Section 5: Rupganj (Shitalkhya West bank) to Balu River (East bank) (Treated water pipeline) and

[5]Rajdhani UnnayanKartripakkha, or RAJUK – the Capital Development Authority of the Government of Bangladesh. It is a Bangladeshi public agency responsible for coordinating urbandevelopment in Dhaka, Bangladesh.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

- RP Section 6: West Bank of Balu River to Vatara along Madani Avenue up to Baridhara[6].

The spread of each Resettlement Plan section is shown in below **Figure 3.1**.

Comment [9]: Please refer to the footnote 6; is the information updated in the resettlement plan.

Comment [RA10]: Location is same. Resettlement impact is not different. Engineers termed this section as "Balu River (West bank) to the junction of Pragati Sarani and Madani Avenue at Natun Bazar" instead of "West Bank of Balu River to Vatara along Madani Avenue up to Baridhara".

[6]Resettlement Plan mentioned at Vatara but later, during detailed designing, the location has been identified as Balu River (West bank) to the junction of Pragati Sarani and Madani Avenue at Natun Bazar.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

3.1 Summary of identified Impacts and mitigation

The below table presents a summary of the land requirements with areas and types of impacts identified so far within the areas of packages P1 and P2.

Table03.1: Land Acquisition and Resettlement Impacts

RP Section Nos.	Locations	Land Requirement for Acquisition (in acre)			Structure and other impacts	Comments / Status
		Total	Public	Private		
1 (P1)	Water Intake Area (WIA)	21.37	7.15	14.22	Agriculture and fish livelihood	According to resettlement plan 87 are affected households. However, 232[7] affected persons have been identified by the Deputy Commissioner's office and by the executing agency (DWASA) including non-titleholders. These numbers may vary after the completion of compensation payment (CCL and other resettlement assistances).03 households significantly lose their agriculture-based livelihood. Compensation was paid to 231 affected persons. The remaining 1 person submitted papers to Deputy Commissioner's office for getting CCL.
2 (P1)	Intake to Balia Para	109.32	4.59	104.73	Agriculture, livelihood, and structure	According to resettlement plan 1165 are affected households. 1606[8] affected persons have been identified by the Deputy Commissioner's office and by the executing agency (DWASA)including tenants and wage labors. These numbers may vary after the completion of all payments (CCL and other resettlement assistances). There were 290 structures also affected. All of the structures have been paid and relocated now. 47 households significantly lose their agriculture-based livelihood inlivelihood. In total 1511affected persons received CCL and other resettlement assistance. The remaining 98[9] affected persons have legal issues.
3 (P1+P2)	DarikandiChak (start of Rupganj) to Murapara	62.74	25.04	37.70	Agriculture, structure and livelihood	According to resettlement plan 434 are affected households. Approximately 478[10] affected persons have been estimated by the Deputy Commissioner's

Comment [r11]: Check this number . In the 13th SSMR 1510 received ccl, so this is only an increase of 1.

Comment [RA12]: Sorry, there was an error in 13th SSMR. Actually, it was 1500. During this reporting period 11 affected persons have been paid, the list of 11 affected persons is appended with this report.

[7] In total 232 (223 titled+9 non-titled) affected persons.
[8] In total 1606 (1540 titled+66 others (13 tenants+53 wage labor) affected persons of which 1511 received payment.
[9] There were 158 CCL unpaid affected persons were reported. Out of them 60 affected persons received CCL.
[10] There are two LA cases in section 3 such as LA case 5/2018-19 and LA case 10/2018-19. LA notice under 8(3)(ka) distributed to 280 affected persons against LA case 5/2018-19 and LA notice under 8(3)(ka) distributed 198 affected persons against LA case 10/2018-19. CCL payment is on-going forboth LA cases (5/2018-19 and 10/2018-19).

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

RP Section Nos.	Locations	Land Requirement for Acquisition (in acre)			Structure and other impacts	Comments / Status
		Total	Public	Private		
	via Gandharbpur WTP					office after the Joint verification survey. These numbers may vary after the completion of all payments (CCL and other resettlement assistances). In addition, 53 non-titleholders affected persons have been identified and compensated. There are 141 structures ~~affected.Out~~affected. Out of those 112 affected persons received compensation and 86 structures have been relocated.20 households significantly lose their agriculture-based livelihood.
4 (P1)	Water Treatment Plant (WTP)	81.53	DWASA land	No private land	Structure, agriculture, and livelihood	This land is DWASA's own land.260 affected persons have been identified as non-~~titleholders.It~~titleholders. It also impacted 60 structures. All affected persons and all structures have been paid. ~~and relocated.Six (6) affected persons have been identified by GRC.~~
5 (P2)	Rupganj (West bank of Sitalakhya river) to ~~Balu river~~Balu River (East bank)	21.52	0.45	21.07	Structure, pond, agriculture, and livelihood	According to revised resettlement plan 110 households are affected. However, 191 affected persons have received Land ~~Acquisition(~~Acquisition (LA) notice. Out of those 191, 53 affected persons received 8(3)(ka)[11] and 138 affected persons received notice under section 7(1)[12] from Deputy Commissioner's office. These numbers may vary after the completion of all payments (CCL and other resettlement assistances. Twenty-nine (29) aAffected persons received CCL~~compensation~~ under LA case 10/2018-19. LA Case 10/2020-21 has not started paying compensation. In addition, according to revised Resettlement Plan (for 1.9 km) 31structures will be affected. Resettlement plan shows 12 households face significant loss of their agriculture base livelihood.
6 (P2)	Balu river to the junction of Pragati Sharani and Madani Avenue at Natun	14.23	8.79 [6.5 km (RAJUK ~~road)=~~road) =7.88 acres + 0.92acre	5.43	Agriculture, Structures, and livelihood	According to resettlement plan there are 191 households affected. Deputy Commissioner's office identified and distributed Land Acquisition notice under section 7 (1)[13] to 48 affected ~~persons.These~~persons. These

[11] This LA notice has been distributed under LA case 10/2018-19
[12] This LA notice has been distributed under LA case 10/2020-21.
[13] This LA notice has been distributed under LA case 14/2020-21.

Comment [r13]: For what ? is it from the previous reporting period? Are these new persons?

Comment [RA14]: For loss of structure and business. These are from previous reporting period. Two have been paid during this reporting period.

P3.2	Feeder Pipelines	42 km.
Total		**102 km.**

3.1.1 Resettlement Plan Update and Public Consultation

The INGO, DORP under the guidance of MDSC is assisting DWASA in updating the Resettlement Plans and implementation of the resettlement activities for the Resettlement Plan Sections 1 to 6 covering Packages P1 and P2. DORP has updated six (6) draft resettlement plans (1-6~~).Out~~). Out of these, Resettlement Plan for Section 2 (non-priority mouzas) and Section 5 are due for approval.Resettlement Plan Section 5 has been updated for the actual pipe alignment. ~~and~~ Draft of updated Resettlement Plan for ADB review submitted to ADB on 22 May2022.

Comment [SGB15]: Shall we mention as the "draft for ADB's review" submitted on?

Comment [RA16]: Mentioned as suggested

Regular consultations with the affected persons and other stakeholders are being conducted by DORP to ensure that affected persons are fully aware of the project interventions and about their entitlements in case of involuntary land acquisition and resettlement assistances for affected persons (titled and non-titled holders).

PMU with the assistance of MDSC has prepared DDR for P3.1 which is approved by ADB and uploaded on ADB and DWASA website. Resettlement Plan has been prepared for P3.2 which received no objection from ADB, which has also been disclosed on ADB and DWASA website. This will be updated ~~beforethe~~before the start of civil ~~works.The~~works. The contract for P3.1 has been signed on 9 September 2021. INGO namely Knowledge Management Consultants Ltd (KMC)has been appointedfor resettlement plan implementation for packages P3.1 and P3.2.

Reporting Period and Frequency of Submission

In compliance with the requirement of paragraph 91 of item B. Monitoring under section IX. Performance Monitoring, Evaluation, Reporting, and Communication of the Project AdministrationManual (PAM) (December 2020) this Social Safeguards Monitoring Report is due Semi-annually.

The submission would cover six months of every January to June and July to December of each year till the completion of the project.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Compensation and Rehabilitation

4.1 Framework, Policies, and Acts for Resettlement Plan Implementation

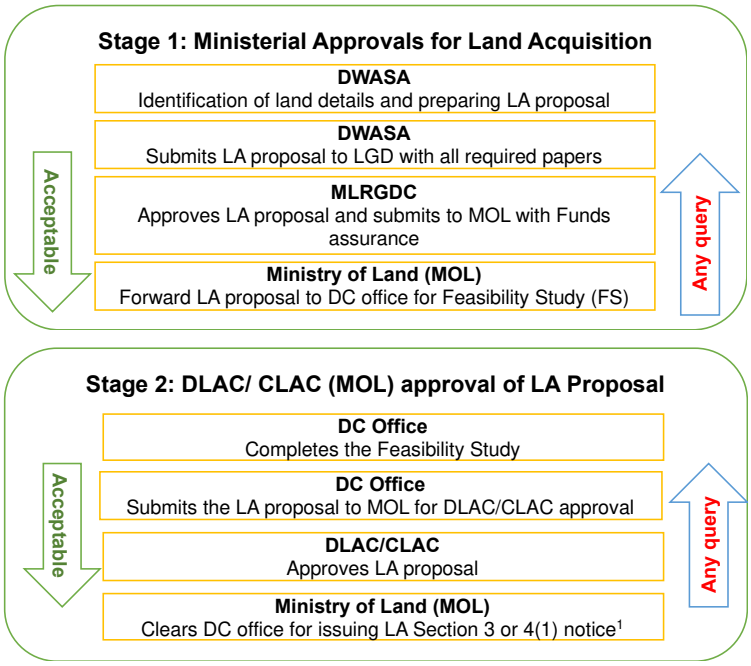
Involuntary resettlement has been addressed based on applicable legal and policy frameworks of the Government of Bangladesh ~~follows DESWSP Resettlement Framework of 2013, ADB Safeguard Policy Statement (SPS) of 2009, and national legislations of GoB~~that include Acquisition of Immovable Property Ordinance (ARIPO) of 1982 as well as Acquisition and Requisition of Immovable Property Act (ARIPA) of 2017 and ADBs Safeguard Policy Statement (2009) .

Resettlement Plans for Sections 1, 2, and 4 have been updated based on the then ARIPO of 1982 ~~asthe~~as the land acquisition processes for the sections started ~~before~~ARIPA~~before~~ RIPA 2017 was enacted. The Acts, ARIPA 2017, is applicable for updating and implementing Resettlement Plans for Resettlement ~~Plan~~Sections~~Plan~~ Plan Sections 3, 5, and 6. Packages P3.1 and P3.2 will also be following ARIPA 2017.

4.2 Process of Resettlement Plan Implementation

The Resettlement Plan implementation, starting from Identification of land details and preparing Land Acquisition ~~proposalby~~proposal by DWASA to handing over the site to contractor post completion of settlement of payments to affected persons, follows a systematic and lengthy process, which may be defined in a 6-staged process as presented below:

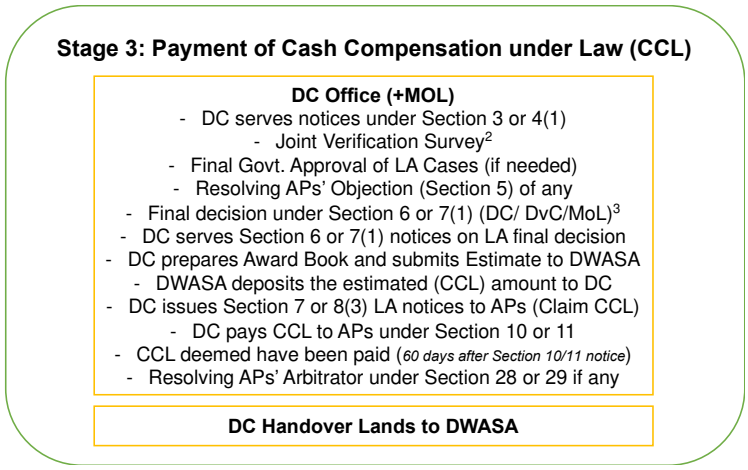
Figure0.1:Process of Resettlement Plan Implementation and site handover to Contractor



[1] Section 3 in compliance with Acquisition and Requisition of immovable Property Ordinance ARIPO 1982 (applicable to RP for Section 1 and 2) and Section 4(1) in compliance with Acquisition and Requisition of

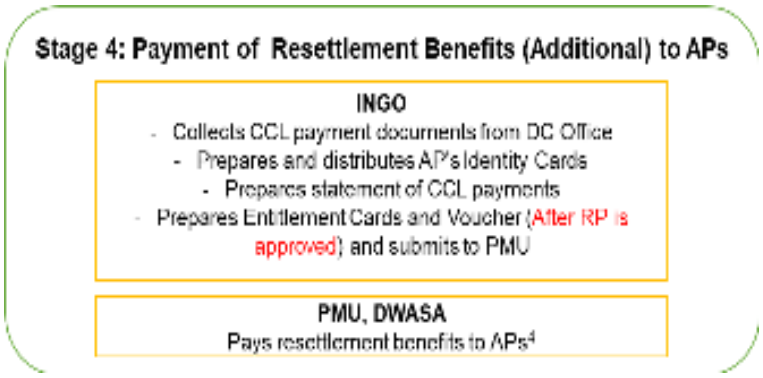
INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Immovable Property Act (ARIPA), 2017 (applicable to RP Section 3 to 6 and p3.1 and P3.2). This applies to other Land Acquisition Sections as referred to next.



[2] Comprises of Deputy Commissioner's LA offices, PMU, and other relevant government departments and ministries.

[3]Depends on the size of required lands; Deputy Commissioner's (<50 bighas) or Divisional Commissioner (> 50 bighas).



[4]Subject to the approval of Resettlement Plan.

Stage 6: Site Handover to Contractor

PMU handover site to Contractor to start Civil Works

4.3 Progress of Resettlement Plan Implementation

4.3.1 Updating Resettlement Plans

ADB approved draft Resettlement Plans for Sections 1, 2, 3,4, and 6. Resettlement Plan for Section 2 (10 km of raw water pipeline through 21 priority mouzas) updated further with payment status and received ADB concurrence on 3 February 2021.

Updated resettlement plan for Section 5 based on final alignment has been submitted to ADB on 22May 2022.

The ~~revisedResettlement~~revised Resettlement Plan for Section2 (non-priority mouzas) has been submitted to ADB on 13April 2022 and ~~awaiting~~waiting for clearance by ADB.

The section-wise Resettlement Plan status is presented below:

RP Section 1	*Water Intake (P1) at Bishnandi, Araihazar Upazila*	
Status of Draft Resettlement Plan	ADB approved (19 November 2018)	[1] updated further with payment data and dedicated account details.
Status of Updated Resettlement Plan	Submitted to ADB[1] (12 December 2020)	
Land handed over by Deputy Commissioner	April 2018	
ADB Concurrence to start Civil Works	November 2019	
Access to Contractor	100%	
Status of Construction	Construction in progress (at 59.2%)	

RP Section 2	*Raw Water Pipeline (P1): Water Intake to Baliapara (end of Araihazar Upazila)*	
Status of Draft Resettlement Plan	ADB approved (4 April 2019)	[1] updated further with payment data and DDR for the 4 km second priority mouzas.
Status of Updated Resettlement Plan	Submitted to ADB[1] (13 April 2022)	
Land handed over by Deputy Commissioner	April 2018	
ADB Concurrence to start Civil Works	February 2021 (part, 10 km), February 2022 (part, 4 km)	
Access to Contractor	100%	
Status of Construction	Construction in progress (at 39.6%)	

RP Section 3	*Raw Water Pipeline (P1) & Treated Water Pipeline (P2): Darikandi Chak(start of Rupganj Upazila) to Murapara via Gandharbpur WTP*	
Status of Draft Resettlement Plan	ADB approved (28 November 2019)	[1]There are two LA cases in this section; LA Case 5/2018-19 and LA Case 10/2018-19. Deputy Commissioner handed over land against LA Case 5/2018-19 to DWASA. PMU want concurrence to start civil works in 4 mouzas such as Darikandi, Darikandirchak, Datterkandi and Golakandailunder LA Case 5/2018-19.
Status of Updated Resettlement Plan	DDR for LA Case 5/2018-19[1] submitted to ADB for concurrence	
Land handed over by Deputy Commissioner	Deputy Commissioner handed over land against LA Case 5/2018-19.	
ADB Concurrence to start Civil Works	Concurrence received for BWDB land. Waiting for land under LA Case 5/2018-19	
Access to Contractor	50% (5 km BWDB land which is scattered, not continousstretch ~~along~~)	
Status of Construction	Yet to start	

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

RP Section 4	*Water Treatment Plant (P1) at Gandharbpur*
Status of Draft Resettlement Plan	ADB approved (19 November 2018)
Status of Updated Resettlement Plan	Payment has been completed on approved Resettlement Plan
Land handed over by Deputy Commissioner	DWASA's own land
ADB Concurrence to start Civil Works	November 2019
Access to Contractor	100%
Status of Construction	Construction in progress (at 67.8%)

RP Section 5	*Treated Water Pipeline (P2): Rupganj (Shitalkhya West bank) to Balu River (East bank)*
Status of Draft Resettlement Plan	Draft submitted on 22May 2022
Status of Updated Resettlement Plan	Addressed Comments received from ADBand submitted[1]
Land handed over by Deputy Commissioner	Part of this section covered by LA case (10/2018-19) which issued LA notice section 8(3)(ka) and CCL payment started. Another LA case (10/2020-21) issued LA notice under section 7(1), CCL payment not started.
ADB Concurrence to start Civil Works	Not yet received as Resettlement Plan is being revised and compensation payment is ongoing.
Access to Contractor	Access to be delayed; expected in September 2022
Status of Construction	Contractor appointed on 6 May 2021

[1]This resettlement plan has been revised based on 1.9 km final alignment of DWASA. Remaining 3 km long RAJUK land will be used by DWASA for pipeline installation following same method which is being followed for using other government land such as 5 km long BWDB land and 5.5 km long another portion of RAJUK land in Madani Avenue. RAJUK has already issued a letter to DWASA for using 3 km long major road. The copy of the letter is given in **Appendix 11.1** as Bangla and **Appendix 11.2** as English.

Formatted: Justified

RP Section 6	*Treated Water Pipeline (P2): Balu River (West bank) to Pragati Sarani and Madani Avenue junction at Natun Bazar*
Status of Draft Resettlement Plan	RP received approval on 15 November 2021
Status of Updated Resettlement Plan	Resettlement assistance has been paid to non-title affected persons as per resettlement plan
Land handed over by Deputy Commissioner	LA case (14/2020-21) issued LA notice under section 7(1), CCL payment not started
ADB Concurrence to start Civil Works	ADB gave concurrence to start the civil works in Madani Avenue (public lands owned by RAJUK) on 16 March, 2022. Yet to get ADB concurrence for private land as payment not started.
Access to Contractor	Access has been given for 5.5 km public lands owned by RAJUK (84% of the Section) on15 April 2022. Access to be delayed for 1.0 km. (private lands). Expected in September 2022.
Status of Construction	Contractor appointed on 6 May 2021

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Package 3.1	*Primary distribution pipelines in Dhaka*	
Status of Draft Resettlement Plan	Due Diligence Record (DDR)[1] approved and uploaded	[1] No resettlement impact reported.
Status of Updated Resettlement Plan	Will be updated before starting civil works	
Land handed over by Deputy Commissioner	No land acquisition required	
ADB Concurrence to start Civil Works	Yet to receive	
Access to Contractor	Expected in September 2022	
Status of Construction	Contract signed on 9 September 2021	

Package 3.2	*Feeder pipelines distribution in Dhaka*	
Status of Draft Resettlement Plan	Resettlement Plan approved and uploaded[1]	[1] Out of 28 pipeline routes, 1 has a temporary relocation impact.
Status of Updated Resettlement Plan	Will be updated before starting civil works	
Land handed over by Deputy Commissioner	No land acquisition required	
ADB Concurrence to start Civil Works	Yet to receive	
Access to Contractor	Expected in September 2022	
Status of Construction	Bids under evaluation	

4.3.2 Progress in Lands Acquisition and handing over to Contractor

The land acquisition process of Package 1 & 2 areas is progressing. Compensation payment under P1 (except Resettlement Plan Section 3) has been completed except for land with legal cases only. Payment is on-goingin Resettlement Plan Section 3. Deputy Commissioner's office handed over part of land ~~of~~under Resettlement Plan Section 3 under LA case 5/2018-19. Compensation payment of Package 2 areas has started in part of Resettlement Plan Section 5 under LA case 10/2018-19.CCL payment has not started yet in Resettlement Plan Section 6. There is no requirement of land acquisition for P3.1 and P3.2 areas as explained earlier.

Civil works are being carried out in Resettlement Plan Section 1 (Water Intake), Resettlement Plan ~~Section~~[Section [part of raw water pipeline (14 km)], and Resettlement Plan Section 4 (WTP).

The progress made at the end of this reporting period in land Acquisition in P1, P2, P3.1, and P3.2 is briefly detailed hereunder.

As mentioned above, there are two LA cases in Resettlement Plan Section 3; LA case 5/2018-19 and LA case 10/2018-19 with a small part of a mouza of Resettlement Plan 5 also. Payment has been completed under LA case 5/2018-19 except legal cases and unavoidable reasons. Payment is on-going for LA case 10/2018-19. In total 262 (54.8%) affected persons received CCL and 229 (87%) of them received resettlement assistances. Thirty-three (33) affected persons are yet to receive resettlement assistance. Resettlement Plan Section 6 has one LA case (LA Case 14/2020-21). LA notice under section 7(1) has been distributed to the affected persons during last reporting period in October 2021.PMU is awaiting to receive CCL estimate from the Deputy Commissioner's office for LA Case 10/2020-21 in Resettlement Plan Section 5. PMU received CCL estimate for LA Case 14/2020-21 ~~for~~Resettlement~~for~~ Resettlement Plan 6 from Deputy Commissioner's office. DWASA deposited estimated CCL amount to Deputy Commissioner's office on 15 June 2022.

Comment [17]: Is there any pending cases for receiving resettlement assistance, please mention.

Comment [RA18]: Mentioned.

As mentioned earlier CCL payment has started in the part of Resettlement Plan Section 3 and 5 under LA case 10/2018-19. In order to determine market price of land, structures and trees a Property Valuation Advisory Committee (PVAC) meeting was held for this LA case area on 16.02.2022 where rates were fixed by mutual consensus. Minutes of the PVAC meeting in Bangla and English are attached herewith as **Appendix11.3 and Appendix 11.4.**

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Bangladesh Water Development Board (BWDB) has handed over 24.875 acres of land to DWASA for using as pipeline alignment in Section 3 in 10 mouzas namely Vulta, Karnagop, Narsingol, Deboi, Noagaon, Gandharbpur, Brahmongaon, Shibganj, Goalkandail and Tetlabo.Length of this area is 5 km, of which 3 km is in P1 area and another 2 km is in P2 area. There are 53 squatters in this BWDB land. The project has carried out a joint verification survey in 23 January 2022 to assess their losses and to pay compensation. Based on the Joint Verification Committee's report DWASA has paid compensation to all 53 squatters. ADB gave concurrence for civil works on BWDB on 4 April 2022. At that time three affected persons were not paid due to their unavailability. DWASA has sent registered letter to two affected persons as one affected person could not be traced out. So, DWASA had put signboards with detail of affected persons including INGO's contact number so that affected persons can receive their compensation as per their convenience. Considering all activities, ADB has given concurrence to PMU ~~in~~ to ~~handing~~ hand over this BWDB land to the P1 and P2 contractor. PMU has handed over the land to the contractors. All 53 affected squatters have now been paid. Joint Verification Report in Bangla and English are given in **Appendix 11.5** and **Appendix 11.6.** Photo of signboard is attached as**Appendix 11.7.**

There are about 5.5 km RAJUK road in the Resettlement Plan section 6. In this RAJUK road there were 28 squatters and 5 wage laborers. The project has conducted joint verification survey on 3 January 2022 to assess losses of those squatters and to pay them. Based on Joint Verification Committee's report DWASA has paid compensation to all of the squatters. Considering PMU's activities ADB has given concurrence to start civil works in here. PMU has handed over this land to P2 contractor. The contractor has started civil works. Afterwards, 3 non-title affected persons were identified through GRC. These have also been ~~paid.Joint~~paid. Joint Verification Report in Bangla and English are given in **Appendix 11.8**.and **Appendix 11.9.**

The following **Figure 4.2** shows major stages of land acquisition and percentages of progress under P1 and P2. P3.1 and P3.2 do not require any land ~~acquisition.The~~acquisition. The graph depicts that

- Land acquisition proposals for all the 6 sections got the ministerial approvals;
- District Land Acquisition Committee (DLAC)/ Central Land Acquisition Committee (CLAC) approved the land acquisition proposal for all the 6 sections;
- CCL payment for Sections 1 is at 99% completion, for Section 2 is at 94%, for Section 3 is at 55% and for Section 5 is at 15%.CCL payment for part of Section 5 and Section 6 is yet to start; There 53 and 36 non-title affected persons were identified in Section 3 and 6 respectively and all of them have been paid.
- Out of eligible affected persons, payments of resettlement assistance are completed in Section 1, Section 4 and Section 6. Resettlement assistance payments among eligible affected persons are almost completed in Section 2, Section 3 and in Section 5.
- Deputy Commissioner's Office has handed over 100% of required lands of Sections 1 and ~~2.Deputy~~2. Deputy Commissioner's Office handed over part (3 km out of 5 km private land) of Section 3.DWASA owns land of Section 4. That for the other 3 sections is yet to complete the CCL payments before initiating the land hand over; BWDB handed over 5 km land to use in Section 3.
- ADB has approved Resettlement Plans for Sections 1, 2, 3, 4, and 6. The revised Resettlement Plans for Sections 5 has been submitted to ADB.
- Resettlement Plan Section 1, Section 2, part of Section 3 (BWDB land), Section 4 and part of Section 6 (RAJUK land) have received ADB concurrence for the start of civil works; and
- Sites under Sections 1, 2, part of Section 3 (BWDB land), Section 4 and part of Section 6 (RAJUK land in Madani Avenue) have been handed over to contractors.

Figure0.2: Progress on Land Acquisition

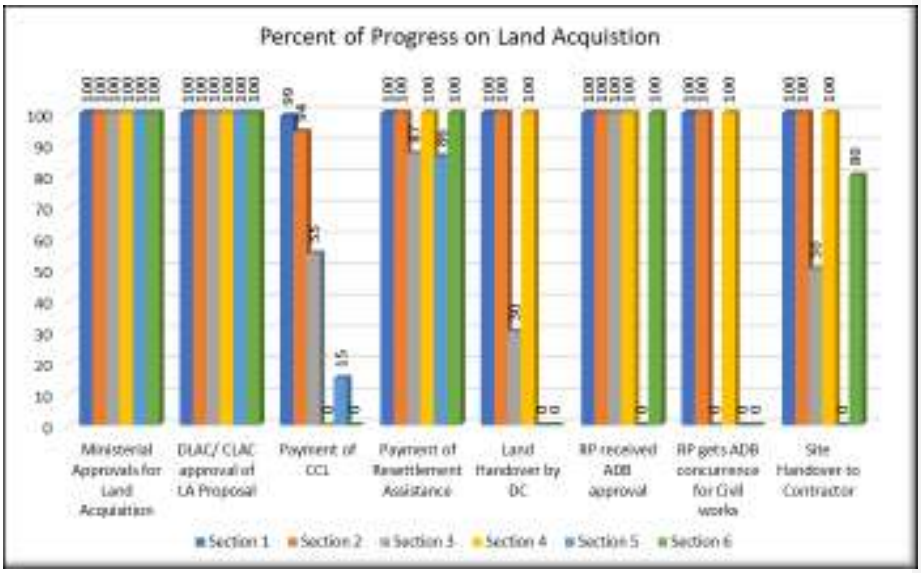
Comment [19]: Have they been finally contacted ? Did they receive compensation till the reporting period of this SSMR ?

Comment [RA20]: It has been mentioned in the earlier sentence that all 53 APs has been paid during this reporting period. One sentence added in this regard.

Comment [21]: Please rephrase the sentence.

Comment [RA22]: Rephrased

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.



Status of Land Clearance

According to the construction contract conditions, DWASA has to handover to contractors the encumbrance-free sites (lands). There are 2189 plots in the project alignment in 6 resettlement plan sections. Out of those 1508 plots have been fully paid. There are 262 plots with structures. Out of those 169 have been cleared after paying full compensation. There are 287 plots with trees of which 208 have been cleared after paying full compensation.

Comment [SGB23]: Please reword with appropriate language. Cleared after compensation payment etc.?

Comment [RA24]: Reworded.

The following table briefly presents the section wise lands clearing status of Resettlement Plan sections at the end of this reporting period.

Table04.1: Availability of Work Front

Figures are in numbers of Plots

RP Section	Total Plots	Plots with Structure	Plots with Trees	Plots Fully Paid	Structures Cleared	Trees Cleared	Comments
Section 1	127	None	None	127	n/a	n/a	Construction ongoing
Section 2	899	101	131	698	101	131	Construction ongoing

4.3.3 Progress in Payment of CCL and Other Benefits

Deputy Commissioner's office is paying CCL for Resettlement Plan Section 1, 2, 3 and part of Section 5. DWASA is also disbursing resettlement assistances (other benefits) efficiently in these sections except Resettlement Plan Section 5 ~~since Resettlement Plan is not~~(yet to be approved ~~yet~~). Payment has been completed in Resettlement Plan Section 4. Despite frequent follow up by INGO and PMU, some affected persons in Resettlement Plan Section 2 and 3 are delaying submitting required papers for receiving compensation. In total BDT 3,075,269,012(32,715,628USD) has been paid to the total 232045 affected persons of which BDT 1,581,978,114 (16,829,554USD) during this reporting period. Lists of affected persons who received payment in Section 2, 3, 4 and 6 during this reporting period is attached as **Appendix 11.10, 11.11, 11.12**, and **Appendix 11.13** respectively. It needs to be mentioned here that names of some affected persons are repeated in the lists as they owned multiple plots and therefore received compensation multiple times. Some lists are signed by the affected persons and some are not because collection of signatures has been started after ADB's instruction given in March 2022. Before March 2022 the payment lists were not signed by the affected persons. Before that the affected persons used to sign only on the stamp papers which are not possible to attach. From next SSMR all payment lists will be signed by the affected persons.

No investment allowance under LIRP has been provided since no LIRP training has been taken place during this reporting period.

The affected persons in Resettlement Plan 2 and 3 who have received compensation for relocating residential structures have built new houses which is better than pre-resettlement ones. Pictures of some houses newly built by affected persons in Section 3 are presented in **Appendix 11.14** that shows the improvement of living standards of affected persons. Some of the affected persons in Resettlement Plan 3 who have received compensation for relocating residential structuresare currently constructing their new houses before dismantling the affected structures.

The progress so far made in the payment of CCL and other assistances is briefly presented hereunder.

Table 4.1.1: Progress of CCL payment and other assistances

RP Section 1	*Water Intake (P1) at Bishnandi, AraihazarUpozila*	
Identified Affected Person	223 + non-titled 9 = 232	• 9 affected persons claimed ownership over Khas lands and the dispute is not yet settled.
Payment of CCL[15]	222 (99.6%)	
Payment of Top Up[16]**& other Resettlement Assistance**[17]	231 (99.6%)	• 1 affected person remained unpaid due to legal issues. If the above-mentioned 9 affected persons get the ownership, the remaining number would be 10.
CCL remains unpaid	1 (0,004%)	

Comment [25]: Please sspecify under which sections such cases are happening? Are these persons identified? What strategy has been adopted by the PMU to persue the affected land owners to expidite the process.

Comment [RA26]: This is applicable for 2 and 3. INGO and PMU contact these APs frequently through individual contacts, community meetings, etc. and try to convince them.

Comment [27]: Please summarise number of title holders and non-title holders who received compensation.

Comment [RA28]: It has been summarized in Table 4.1.1.

Comment [29]: Specify the particular reasons for receiving compensation multiple times? How many such cases are there and under which sections?

Comment [RA30]: Some affected persons have multipe plots of lands in the alignment. So, they received payment multiple times. Sectionwise number of affected persons who have received payments for multiple plots in the alignment is given below:
Section ...

Comment [31]: Please mention by whom

Comment [RA32]: Mentioned

Comment [33]: Will they loss income from the disputed land?

Comment [RA34]: They lost income from fisheries and PMU paid compensation for that.

[15] The District Commissioner (DC) pays Cash Compensation under Law (CCL) for acquisitioned and affected other immovable properties on behalf of the Government of Bangladesh according to Acquisition and Requisition of Immovable Property Ordinance (ARIPO), 1982 for Resettlement Plan Section 1, 2 & 4 and Acquisition and Requisition of Immovable Property Act (ARIPA), 2017 for Resettlement Plan Section 3, 5 & 6.

[16] This is the difference between CCL and current market value (CMV), if any, paid to the Affected Persons in compliance with the ADB Safeguard Policy Statement, 2009, which is determined by the Property Valuation Advisory committee (PVAC) and is paid by DWASA.

[17] This is the amount payable to Affected Persons, Titleholders a compensation other than Top Up and Non-Titleholders (displaced due to the acquisition of the land, e.g., squatters, informal settlers, crops sharers, vulnerable, etc.) for their non-land assets in compliance with ADB's SPS policy. DWASA pays the amount according to the Resettlement Plan's entitlement matrix.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

RP Section 2	*Raw Water Pipeline (P1): Water Intake to Baliapara (end of AraihazarUpozila)*	
Identified Affected Person	1 540 + non-titled 66 = 1 606	• CCL payment remains unpaid for 98[18] affected persons. PMU has deposited the estimated compensation amount in a dedicated account for those affected persons.
Payment of CCL	1 442 (93.6%)	
Payment of Top Up & other Resettlement Assistance	1 511 (94.1%)	
CCL remains unpaid	98 (6.4%)	

RP Section 3	*Raw Water Pipeline (P1) & Treated Water Pipeline (P2): Darikandi Chak (start of Rupganj Upozila) to Murapara via Gandharbpur WTP*	
Identified Affected Person	478[19];+53 non-title=531	• CCL payment is ongoing for LA case 5/2018-19 (though Deputy Commissioner handed over land to DWASA) and LA case 10/2018-19.
Payment of CCL	262 (54.8%)	
Payment of Top-Up & other ResettlementAssistance	282[20] (53.1%)	
CCL remains unpaid	216 (45.2%)	

RP Section 4	*Water Treatment Plant (P1) at Gandharbpur*
Identified Affected Person	260 (Squatters, etc.)
Payment of CCL	N/A
Payment of Resettlement Assistance	260 (100%); completed
Payment for CPR	The graveyard committee paid 100%

RP Section 5	*Treated Water Pipeline (P2): Rupgonj (Shitalkhya West bank) to Balu River (East bank)*	
Identified Affected Person	191[21]	• Resettlement Plan has been revised based on 1.9 km actual alignment by DWASA.
Payment of CCL	29 (15.2%)	
Payment of Top Up & other Resettlement Assistance	0[22]	• CCL payment is going on under LA Case 10/2018-19.
CCL remains unpaid	16276 (84.8%)	• Deputy Commissioner's office is preparing CCL estimate for part of this Resettlement Plan under LA Case 10/2020-21.

RP Section 6	*Treated Water Pipeline (P2): Balu River (West bank) to Pragati Sarani and Madani Avenue junction at Natun Bazar*	
Identified Affected Person	48[23]+36 non-title=84	• DWASA deposited estimated CCL amount to Deputy Commissioner's office.
Payment of CCL	Yet to start	
Payment of Top-Up & other Resettlement Assistance	36 (42.9%)	
CCL remains unpaid	48 (100%)	

Payment of Affected Person with legal issues

[18] Up to last reporting period it was mentioned 158 though 49 affected persons received payment in previous reporting period. 11 affected persons received payment during this reporting period.
[19] Deputy Commissioner's office distributed LA notice under section 8(3)(ka) to 280 affected persons under LA case 5/ 2018-19 and to 198 affected persons under LA case 10/2018-19. LA case 10/2018-19 distributed total 251 LA notice under section 8(3)(ka) of which 198 for Resettlement Plan Section 3 and 53 for Resettlement Plan Section 5.
[20] Though number of affected persons are 229 but actually 26259 payments has been given; some affected persons received multiple payment. Fifty-three (53) non-title affected persons received payment.
[21] Deputy Commissioner's office distributed LA notice under 8(3)(ka) to 53 affected persons against LA Case 10/2018-19. Deputy Commissioner's office also distributed LA notice under7(1) to 138 affected persons against LA case 10/2020-21
[22] Resettlement assistance cannot be given because Resettlement Plan is not approved yet.
[23] Deputy Commissioner's office distributed LA notice under 7(1) to 48 affected persons against LA case 14/2020-21

Comment [35]: Please cross check the data with Fotnote 20. Here it mentions CCL received by 262 and footnote mentions 259.

Comment [RA36]: Footnote corrected, it is 262. Thanks

Comment [37]: 176 unpaid + 29 paid = 205. Please check Identified AP figure. Please put in a justification why the initial number of identified persons is less than the actual numbers to receive CCL.

Comment [RA38]: Corrected, thanks

Formatted: Font: 8 pt, English (United States)

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

As mentioned earlier DWASA deposited required claimable amount of compensation to Deputy Commissioner's office for CCL payments for 158affected persons (according to field data) with unsettled legal issues with their claims of Sections 1 and 2. This number has ~~reducedto~~reduced to 98 cases at present. Out of 98 CCL unpaid affected persons, 26 have submitted their necessary papers to Deputy Commissioner's office. PMU sends monthly monitoring report to ADB with the update on the status of CCL payments for those who are yet to receive compensation. Copy of the report of June 2022 is attached as **Appendix 11.15**

As mentioned earlier Deputy Commissioner's office has handed over land to DWASA against LA case 5/2018-19 in Resettlement Plan Section 3 on 7 February 2022. Deputy Commissioner's office had distributed LA notice for CCL payment to 280 affected persons. Out of these 280,~~m~~ payment could be made to 158 affected persons. The other remaining 122 affected persons have legal and other unavoidable issues which may take longer period to resolve. Considering project duration PMU has submitted a due diligence report (DDR) to ADB and sought concurrence from ADB to start civil works in this land. In order to comply with ADB PMU deposited estimated amount of CCL money to Deputy Commissioner's office for those unpaid affected persons. Besides, PMU deposited required money for resettlement assistances in the dedicated account. Money deposit slip has been attached as **Appendix 11.16.**PMU deposited BDT 90,000,000into dedicated account though required amount is BDT69,046,528.

This dedicated account is being operated by joint signatures~~from~~of ~~t.he~~the~~Project~~the Project Director and the Senior Finance and Accounts Officer of the project. On receipt of CCL, affected persons will contact the INGO for getting the top-up and other resettlement assistance. This account will remain active and operational with the requisite balance due for the affected persons till the last unpaid affected persons even if project activities are complete. It was agreed with ADB that the accrued interest will also be distributed proportionately to the affected persons. Interest on the CCL amount will also be paid to meet ADB SPS requirement of replacement cost. It had been found that previous account was not interest bearing. So, PMU has re-opened an interest accruing dedicated account on 5 January 2022 in which previous dedicated account's money has been re-deposited. The new interest-bearing dedicated account has been ~~re-~~opened in Janata Bank, Karwanbazar. The customer ID of this new dedicated account is 1001312995. The above-mentioned money which is required for Section 3 has also been deposited in this account.

4.3.4 Progress in Livelihood and Income Restoration Program

The Project entitlement matrix allows for livelihood training to the affected persons who are vulnerable and who will lose equal to or more than 50 percent of their land. Since it is resettlement assistance and does not contradict the GoB law, the same has been given to those losing more than 10 percent of their (CCL unpaid affected persons in Resettlement Plan Section 2) productive losses to ensure ADB's SPS compliance.

Affected Persons who are Vulnerable and fully lost Agriculture-based livelihood

In all Resettlement Plan sections (1-6) five hundred and fifty-six (556) affected persons have been identified who are vulnerable and who lose their ~~fullagriculture~~full agriculture-based livelihood. Out of these 486 are vulnerable and the remaining 70 are in full loss category.

Vulnerable ~~C~~compensation payment has been given in the ~~4~~6 Resettlement Plans; Sections 1, 2, 3 and ,4.~~, 5 and 6.~~Up to June 2022 there were 4646 affected persons (4146 vulnerable and 50 full loss of agriculture-based livelihood) who received payment are eligible for LIRP training. During this reporting period 2~~6~~8 vulnerable persons received vulnerable grants; 1 in Resettlement Plan Section 2 and ,~~-~~25 in Resettlement Plan Section 3.~~ and 2 in Resettlement Plan Section5~~.

Gender distribution of identified training eligible affected persons who are vulnerable and have fully lost their agriculture-based livelihood in Sections 1, 2,3 and ,4 ~~and 5~~ is given below:

Table~~0~~4.2: Distribution of Eligible Affected Persons who are Vulnerable and who lose Full Agriculture-based Livelihood

Section*	Vulnerable AP	Fully lost livelihood AP	Total

Comment [39]: Please check previous Table for RP section 3. Where 262 persons have been mentioned who received CCL.

Comment [RA40]: RP Section 3 has two LA Cases; LA Case 5/2018-19 and LA Case 10/2018-19. This information is only applicable for LA Case 5/2018-19 for which a DDR has been submitted to ADB.

Comment [41]: Please provide the complete bank details along with Account Number.

Comment [RA42]: Provided

Comment [SGB43]: Please check this statement. Compensation payment started in all these sections?

Comment [RA44]: Yes, compensation payment started in all these sections. CCL payment ongoing in RP Section 1, 2, 3 and 5. Resettlement assistance given in Section 1, 2, 3, 4 and 6. Only non-titleholders received payment in RP Section 4 and 6.

Comment [SGB45]: RP Section 5 is not yet approved. Please check

Comment [RA46]: Corrected, thanks.

Skill development training

Vulnerable affected Persons and those who fully lost their agriculture-based livelihood, those who received CCL payment and other benefits have been offered skill development training, namely, Tailoring, Small Business, Cow and Goat Rearing, and Chicken & Duck Rearing according to their preferred ~~optionsthrough~~options through the NGO guided by MDSC.

No training was imparted during this reporting period. Out of the above mentioned 4646,eligible affected persons, up to June 2022, 378 (86%) affected persons (52 in Section 1, 243[24] in Section 2 and 83 in Section 4) including 46 full loss of livelihood affected persons received training on LIRP. Out of the 378 trained APs 121 were female and the rest 257 were male.

.Each of the trained affected persons (vulnerable+full loss) received Tk. 20,000.00 as investment grants according to the IGA Plan.

Some pictures on income generating activities under LIRP are attached as **Appendix 11.17.**

Thirty-one (~~31)affected~~31) affected persons in Resettlement Plan 3, 6 affected persons in Resettlement Plan 4 and 2 affected persons in Resettlement Plan 5 are yet to receive training. They will be imparted training by next reporting period.

Income generation engagement of trained affected persons:

Out of 378trained affected ~~personsfrom~~persons from sections 1, 2, and 4,369 (98%) ~~areengaged~~are engaged in income generation activities todate. Section-wise segregation is as below.

In Section 1, 52 (100%) out of trained 52 affected persons (vulnerable-49, full loss of agriculture-based livelihood-3), in Section 2, 237 (98%) out of trained 243 affected persons (vulnerable-200 and full loss of agriculture-based livelihood-43) and in Section 4, 80 (96%) out of trained 83 vulnerable affected persons are engaged in income generation activities. The remaining 2% of trained affected persons could not engage in income-generating activities due to shortage of funds and sickness. Post-training follow-up monitoring is ongoing for section-1, 2 & 4. Following are the progress of training and engagement in income generation activities.

Table 04.3: Distribution of Affected Persons who received Training and Engaged in IGA

	Total trained			Engaged in IGA			Remarks
Training Category	Section 1	Section 2	Section 4	Section 1	Section 2	Section 4	
Tailoring	3	31	12	3 (100%)	31 (100%)	12 (100%)	In section-2, 6 APs and Section 4 3 APs are yet to start IGA for following reasons:
Small Business	-	57	14	n/a	57 (100%)	12 (86%)	

[24] Out of remaining 49 APs, 9 APs died and 40 APs have given their opinion that they are not interested to receive LIRP training.

Comment [SGB47]: To which Aps are linked?

Comment [RA48]: Reworded

Comment [SGB49]: Please reword

Comment [RA50]: Reworded

Lists of the affected persons linked with NGOs/microfinance institutions since inception in Resettlement Plan Sections 1, 2, and 4 are given in **Appendix 11.18, Appendix 11.19 and Appendix 11.20respectively.**

Status of vulnerable affected persons

As mentioned above total 416 vulnerable affected persons including 28 affected persons during this reporting period have received the vulnerable assistance among which 107affected persons are female and are heads of their households. Section-wise vulnerable affected person breakdown is as follows:

Table04.5: Distribution of Vulnerable Affected Persons

Section	Number of Vulnerable Affected Persons

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

	Male	Female	Total
Section 1	30	19	49
Section 2	179	66	245
Section 3	17	14	31
Section 4	81	08	89
Section 5	02	0	02
Total	**309**	**107**	**416**

Female participation in livelihood training

To date 121 (32%) female of total 378 vulnerable and fully lost livelihood affected persons trained in Sections 1, 2, and 4. No training was imparted during this reporting period. As per last reporting period, female participation in various categories of livelihood training is presented at the right.

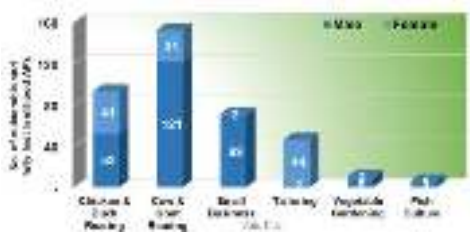

Figure0.3: Female participation in LIRP training

Employment of Skilled, semi-skilled, and unskilled labor by the contractor:

- GWT appointed 1,044 (2%) females out of 42,504 person-days of unskilled/ semi-skilled labours during this reporting period. Since inception, 5,100 (4%) females out of 113,459 person-days of unskilled/ semi-skilled labours appointed against a target of 20%. It is noted that women engaged in cleaning, housekeeping and cooking related work. All female laborers received equal payment with men for equal value of work.
- GWT engaged 3,600 (11%) person days of female security guard out of 33,660 person-days of semi-skilled/skilled security guard during this reporting period. Since inception 38,435 (25%) females out of 156,617 person-days of semi-skilled/skilled security guards in the project area under different positions such ~~as~~~~Security~~as Security Guard, Security Supervisor, CCTV Operator, Office Assistant, Office Secretary and Document Controller etc

Water and sanitation facilities at P1 and P2 areas:

- **Supply of drinking water**: Safe drinking water is available for all staffs and labours within the project area.
- **Supply of water for sanitation facilities**: During field visit held on 14 June 2022 at the Raw Water Pipeline found that water supply was not available at the washroom for the labour at one construction site. MDSC shared the field findings report and discussed with contractor (GWT) and contractor has complied all the findings of the MDSC. Now, water supply is available in all wash room including wash room for labours with all facilities inside the wash room (like: toilet tissue, soap, water supply, flashing system, bucket etc).
- **Sanitation facilities:** GWT & CAMCE (P2 contractor) ensured separate toilet facilities both for male and female including labours in the P1 & P2 areas.
- **Child-care/rest room:** CAMCE established a separate room as a child-care/rest room for female staff of CAMCE at CAMCE office at Purbachal for DESWS project. A picture of the room is attached as **Appendix11.21**.

Public Participation and Consultation

5.1 Public Consultation

Under the supervision and guidance of PMU and MDSC, the INGO conducts the following consultation meetings within the resettlement plan areas to make affected persons aware of resettlement aspects:

- Public consultation meetings (as and when required);
- Community meeting with the affected persons (every month); and
- Focus group discussion (FGD) meeting

During this reporting period,96 community meetings and 2 public consultation meetings were conducted from January to June 2022. NoFGD ~~wascarried~~was carried out during this reporting period. In community meetings, total participants were 1025 where 367were male and 658 were female. Total participants of public consultations were 135 (Male- 116, Female-19).

Issues of discussion were:

- Information dissemination on:
    a. Land Acquisition (LA) notices
    b. Papers required for receiving compensation from Deputy Commissioner's office and other resettlement assistance from DWASA
    c. Compensation entitlements against loss of assets
    d. Compensation payment issue for those affected persons who are yet to receive CCL.

- Delay in paying CCL by Deputy Commissioner's office
- Cultivation on acquired land
- Compensation for employees of Janata Dockyard
- Method of payment if there is no NGO
- Unpaid CCL payment
- Market value of land in Resettlement Plan Section 5
- IGA training and grants
- Guidance in using compensation money in productive ways and continuing IGA activities during COVID-19.
- Responses to queries on a job opportunity in the project's civil works.
- To make affected persons aware in making land encumbrance free which isalready acquired by DWASA.

5.1.1 Public Participation and Information Dissemination on Key Aspects

The INGO consulted affected persons in making them aware of different resettlement issues. At the same time disseminate various information in response to the affected persons' queries.

The INGO on behalf of PMU disseminates information on the following key aspects against issues raised by the affected persons:

- Required ~~documentationto~~documentation to claim Cash Compensation under Law (CCL)[25] from relevant Deputy Commissioners Office. The documents are:
    - Proof of land ownership;
    - Record of updated mutation (transfer or change of title in the records for the concerned property);
    - Up-to-date land tax (revenue) payment receipt;
    - Proof of Nationality (National ID Card)

[25]The INGO staffs to support and guide affected persons in collecting necessary documentation and to ensure that payments are made fair and transparently.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

- A Bank Account[26] with account and bank details.

- Required documentation to claim Additional Payment and Other Resettlement Assistances from the DWASA (PMU)[27]. The necessary documents are
  - The Additional Payment and Other Resettlement Assistances are only claimable by the affected persons who have received CCL;
  - All the above-mentioned documents;
  - Citizenship Certificate from relevant Union Parishad/ Pourashava Chairman;
  - Land share sheet (issued by Deputy Commissioner 's office)
- Affected Persons' entitlements: According to ARIPA 2017, affected persons are entitled to get a 200% premium on land loss and 100% premium on structures, trees, crops, and fish stock from Deputy Commissioner's office. They are also entitled to receive Additional Payment [an amount to compensate the loss on land value (by getting government fixed rate from Deputy ~~Commissioner'soffice~~Commissioner's office) in comparison with the present market value of the land] and other resettlement assistance according to eligibility and entitlement matrix ~~of resettlement framework~~.
- Determination of present market value of lands: For CCL value Deputy Commissioner's office collects land data from the land office on the preceding deed value of 1 year after the cut-~~offdate~~off date. They collect mouza-wise and land category-wise data and calculate an average for fixing land price. CCL value may variate since sometimes deed value seems less than market price. The value of all lands will be determined by a market survey. Property Valuation Advisory Committee (PVAC) will approve the actual land value. The difference between the payment made Deputy Commissioner''s Office (if less than the market price) and the approved market price will be paid by DWASA after receiving the CCL, subject to submission of all necessary papers as mentioned above.
- Compensation for business loss: The affected persons will be fairly compensated according to the market price with a 100% premium from Deputy Commissioner's Office and DWASA will pay compensation for business loss as per the entitlement matrix.
- Time lingering by Deputy Commissioner's office in paying CCL: Land Acquisition Officer (LAO) checks all paper carefully so that so that affected persons do not need to go to the Deputy Commissioner's office frequently. Sometimes Deputy Commissioner's office run out of adequate human resources. PMU holds several meetings with Deputy Commissioner's office on this issue so that Deputy Commissioner's office takes lesser time in paying CCL.
- Payment for CCL unpaid affected persons with land disputes/~~courtcase~~court case: The affected persons with unsettled legal issues will be paid as soon as their issues ~~aresettled~~are settled. In the case of Resettlement Plans 1 and 2, to ensure their CCL payments, DWASA has deposited estimated money to Deputy Commissioner's office(s) and Additional Payment and Other Assistances, DWASA deposited the estimated amount to a dedicated account operated by two signatories from DWASA. The accrued interest will be payable to affected persons proportionate to the individual's due amount. The money will be kept in accounts even after completion of the project as long as the payment to affected ~~personis~~persons is not completed. The same procedure will be followed for the rest of the Resettlement Plan areas. If there is no *NGO* they will get their dues by contacting Dhaka WASA directly. DWASA will have an operational unit in Rupganj and they will be responsible for payment.
- Livelihood and Income Restoration Program -LIRP (Assistance to vulnerable and who lose whole of their agriculture-based livelihood):
  - Affected Persons who are vulnerable and who lose ~~full~~10% of their agriculture-based livelihood, will get different trade-based DWASA organized training on the scope of marketing and creating employment opportunities and according to their choice/interest.
  - The Income Generating Activity (IGA) training will be provided to them to re-establish or restart the loss of livelihood-based activities for enhancing households'' income particularly emphasizing vulnerable women. All of the

Comment [r51]: Mention:,The project will support those AHs losing more than 10% of their productive assets per ADB requirement.

Comment [RA52]: mentioned

[26] Deputy Commissioner's office made payment only through Account Payee Cheque.
[27] Affected persons with the assistance of INGO field staff have to submit all these documentations to INGO Office to prepare the payment vouchers, get approval from PMU and arrange the payments by PMU.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

affected ~~personswill~~persons will be given an investment allowance after receiving training and on the submission of an investment plan.
    - The money which they will receive as compensation and resettlement benefits will have to be used to rebuild the lost structures and restart their livelihood so that they can bring a positive change in their lives or at least at the level of pre-project condition. Affected persons were advised not to use the compensation money/ resettlement benefits in unproductive ways.
    - Training grant recipient affected persons will be monitored and advised regularly by INGO, MDSC, and PMU.
    - The INGO will assist training recipients by involving them with the local level credit institution and NGOs which can provide technical and financial support.
- Compensation for employees of Janata Dockyard: The employees will get compensation from the project as per entitlement matrix i.e., cash compensation equal to lost wages during period ~~ofemployment~~of employment interruption up to 6 months, based on ~~taxrecord~~tax record or registered wage, or, in its absence, comparable rates for employment of the same type). However, as per planning of dockyard authority, the employees may not be affected because dockyard authority will reemploy those in their own another dockyard.
- Cultivation on acquired land: The affected persons cannot cultivate the acquired land in anyway.
- Job opportunity in project's civil works: Affected person who are jobless due to the COVID-19 pandemic. Affected persons want to know if they have any opportunity to work in the project's civil works. INGO staff informed them there is a restriction from the contractor to appoint local workers at present because of pandemic precautions.

Item-wise summary of the community meetings is attached as **Appendix 11.22.**

Besides above consultation, PMU distributed awareness campaign notices (copies of notices were appended with last SSMR) so that the affected persons could be motivated to submit their necessary relevant documents in support of ownership to the land acquisition office for receiving compensation on affected land, structures etc. to Deputy Commissioner's office. At the same time the affected persons were requested to submit one set of those papers along with a photocopy (both side) of compensation received cheque to DORP (INGO) Area office.

5.1.2 Gender mainstreaming

As part of gender mainstreaming,

- 43 (72%) DWASA and NGO staff received training on gender mainstreaming;
- 9 including 2 (22%) female representatives of GWT Contractor and Sub-contractors received training on ADB core labor standard and gender mainstreaming;

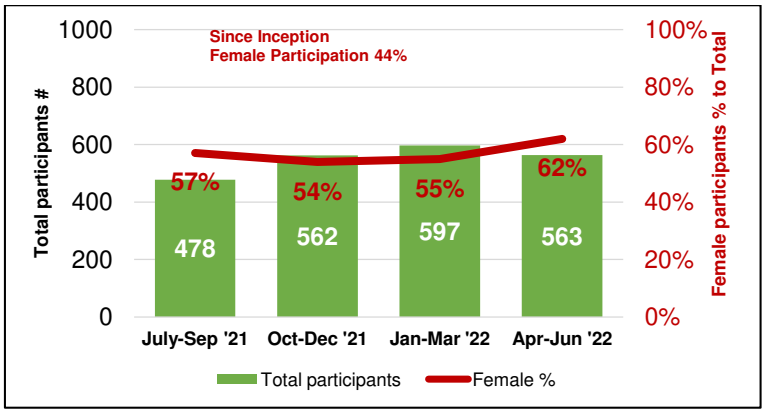
Female participation in social consultation meetings

Since inception, 44%[28] (6,263) female of a total of 14,181affected persons participated in social consultation meetings. Female participation during last reporting periodis58%. Female participation has been increasing day by day and DORP staff suggested to keep up the trend of female participation in future. MDSC is regularly following up this issue and will be guiding DORP to maintaining the trend of female participation. The below figure presents the trend of female participation during the preceding 12months (July 2021 to June 2022).

Figure0.1: Trend of female participation in the social consultation meetings

[28]There is an ADB requirement of ensuring at least 40% of female participation in these meetings.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.



Source: MDSC QPR 2, 2022

5.2 Disclosure of Resettlement Plans

In addition to community meetings, out of six resettlement plans in P1 and P2, 5 resettlement plans for Sections 1, 2, 3,4 and 6 have been updated, approved, and disclosed on ADB and DWASA websites. Resettlement plans for Sections 1, 2, 3, and 4 are being translated by DORP and Safeguard Officer (Social and Gender), PMU. Translated Resettlement Plan Section 3 will be disclosed in the locality by July 2022.

The resettlement plan Sections 5 has been revised as stated in earlier section. Updating of this ~~resettlementplan~~resettlement plan is delayed due to design change of alignment.

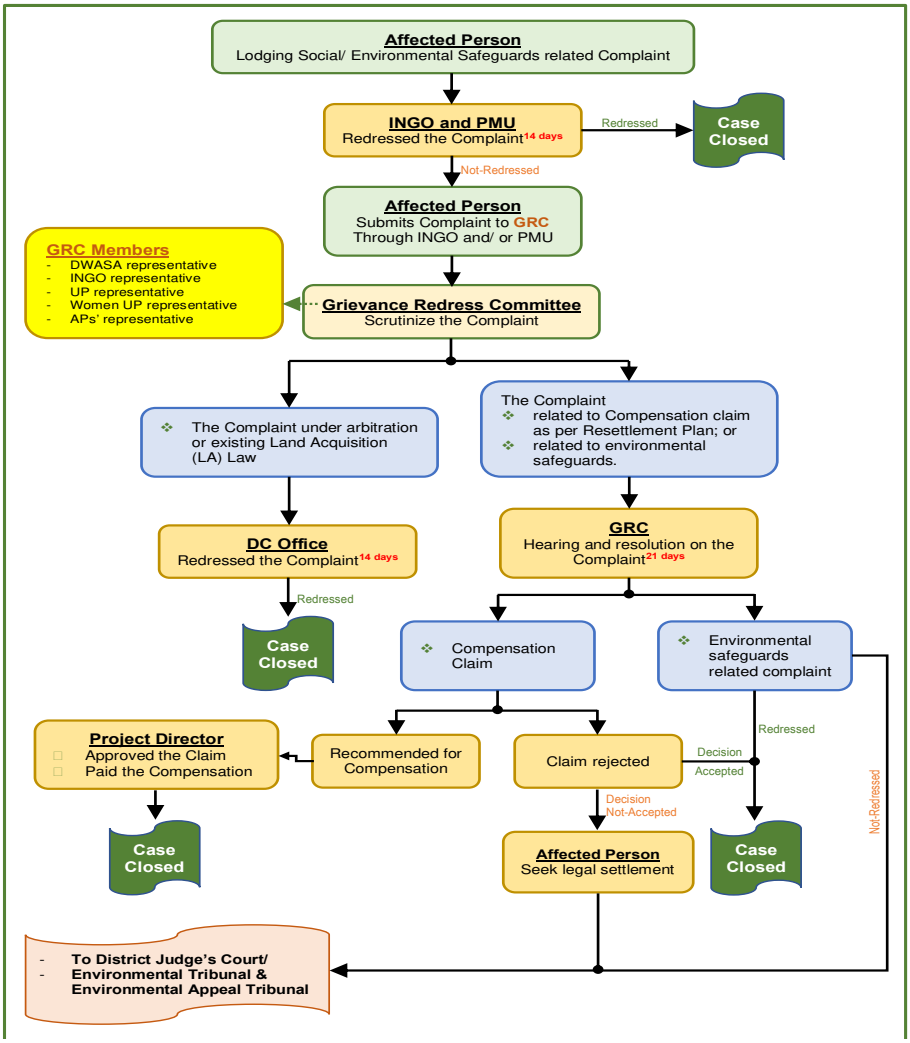
Submitted DDR for P3.1 and Resettlement Plan for P3.2 were approved and disclosed on ADB and DWASA websites. These will be updated further ~~beforethe~~before the start of civil works.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Grievance Redress Mechanism (GRM)

The project has established a grievance redress mechanism in compliance with the principle detailed in Appendix 9 in the Project Administration Manual (PAM; December 2020). The GRM is presented below using a Process Flow Chart:

Figure0.1:Grievance Redress Mechanism Flow Chart



Source: Figure 1, Appendix 9 of PAM (December 2020

The GRM notwithstanding, an aggrieved person shall have access to the country's legal system at any stage. This can run parallel to accessing the GRM and is not dependent on the negative outcome of the GRM.

If the established GRM is not in a position to resolve the issue, the affected person may use the ADB Accountability ~~Mechanismthrough~~Mechanism through directly contacting (in writing) the Complaint Receiving Officer (CRO) at ADB headquarters. Before submitting a complaint to the

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Accountability Mechanism following the ADB process. INGO shall have to assist the grieved AP in this regard.

6.1 Grievance Redress Committees (GRC)

GRCs are formed at PMU and community level in each Union/ Pourashava level, wherever resettlement activities kick-started, with representatives from the DWASA, local elected representatives from the Local Government Institutions (LGI), INGO, affected persons' representatives, women affected persons to allow voices of the affected communities to be heard and ensure a participatory decision-making process. The representative of the INGO functions as Member Secretary of any GRC.

The Grievance Redress Committees (GRCs) have been established to ensure stakeholders' participation in the implementation process and fair compensation to affected persons and in the resolution of Social and environmental safeguards-related complaints.

The Member Secretary of any GRC is regularly available and accessible for ~~affectedpersons~~affected persons to address concerns and grievances. The female member of GRC and the female ~~affectedpersons~~affected persons of affected households participate in the grievance redress session(s) when the complainant is a female. The legal advisor and DORP support the GRC regularly and assist the ~~affectedpersons~~affected persons to formulate their complaints. The grievance cases are recorded with details and results of the cases for review. The affected people are also allowed to go to GRC for any environmental concern as well.

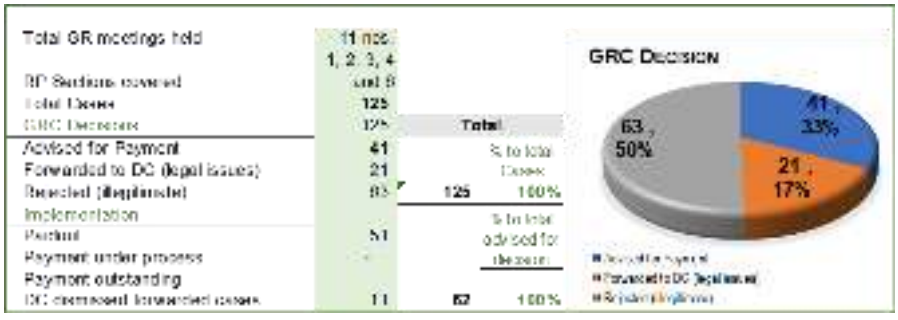
6.2 Scope and Jurisdiction of GRC

The GRCs resolve any complaint of safeguard compliance – environment, involuntary resettlement, and indigenous people, design-related issues, compensation, service delivery, or any other issues or concerns related to the project in compliance with the item i. Scope and Jurisdiction of GRC of Appendix 9 (Ref: PAM, December 2020). The process for redressing any complaint follows the GRM as explained earlier.

There were 11 GRC meetings ~~todate~~to date including 2 during the reporting period. ~~Todate~~To date total of 125 cases were dealt with, 63 cases were considered as invalid, 41 cases were advised for payment, and 21 cases forwarded to Deputy Commissioner's office to settle legal issues. Out of 21, 10 cases have been resolved and paid out compensation. The remaining 11 cases have been dismissed by Deputy Commissioner's office.

During this reporting period, 2 GRC meetings were held with affected persons from resettlement plan Sections 3, 4 and 6 where 8 affected persons have been heard. All the persons were advised for payment.

Overall status regarding nos. of GRC meetings held, decisions were taken and implementation of taken decisions is presented here:



INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Signed copies of Bangla minutes of 10th and 11th GRC are given as **Appendix 11.23 and Appendix 11.24.** English translated minutes of 10th and 11th meetings ~~areappended~~are appended **Appendix 11.25 and Appendix 11.26.** Summary of 10th and 11th GRC meetings is attached as **Appendix11.27.**GRC decision implementation status is attached in **Appendix 11.28**.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Institutional Arrangement

The DESWSP management organizations are

1. Overall guidance and supervision: Ministry of Local Government, Rural Development and Cooperatives (MLGRDC).
2. Executing Agency: Dhaka Water Supply and Sewerage Authority (DWASA).
3. The Financier: Asian Development Bank and its co-financiers, Agence Française de Dévelopement and European Investment Bank.

The roles and responsibilities of each organization are as explained in Table 3: Project Implementation Roles and Responsibility under item A: Project Implementation Organizations: Roles and ~~Responsibilities~~in Responsibilities in section III, Project Management Arrangement if ADB's PAM (December 2020).

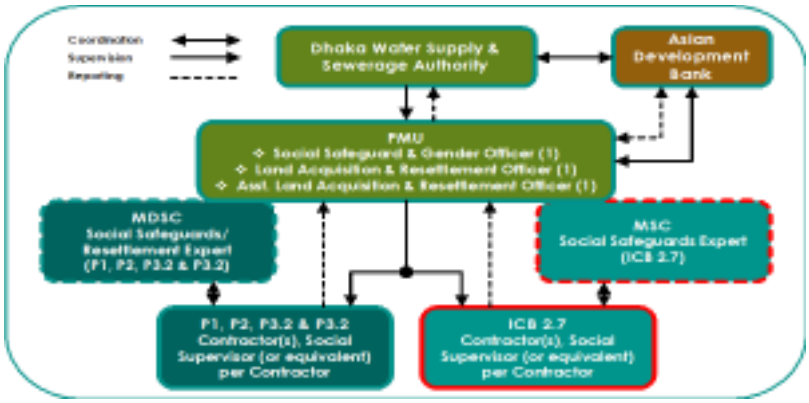
7.1 Project Implementation Partners

To implement the project successfully a concerted effort among government, funders, and national and international private sector service providers is envisaged. The following services providers are involved.

i. Implementing Non-government Organizations (INGOs): to implement Social Safeguard aspects of the project.
ii. Management, Design ~~and~~Supervision and Supervision Consultant: to assist the Executing Agency in detailed design, procurement, management & supervision of INGO and contractors throughout project implementation.
iii. Contractors: in design (design and build contract), construction ~~and~~operation and operation (operation & maintenance contract) of the project packages.
iv. Independent Project Monitoring and Evaluation Agency: To evaluate and monitor the work of NGOs.

Working relationships of the project partners and flow of information in respect of Social Safeguards Plans (Resettlement Plans)areshown below.

Figure0.1:Social Safeguards Plans Implementation partners relationship and flow of information



Notes: *MDSC > Management, Design and Supervision Consultant[29]; MSC> Management and Supervision Consultant*
Source: *(Ref: Figure 8 of PAM, December 2020)*

[29]This report only deals with P1, P2, P3.1 and P3.2.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

DWASA ~~establishedda~~established ~~–~~Project Management Unit (PMU) including a safeguard implementation unit (SIU) staffedwith a Safeguard Officer (Social and Gender) and a Safeguard Officer (Environment).

A Resettlement Expert and Social Development and Gender Specialist from MDSC assist the SIU. The PMU appointed an NGO, Development Organization for the Rural Poor (DORP), in assisting them in the implementation of Resettlement Plans (RPs)/ Due Diligence Records (DDRs)for the Resettlement Planunder packages 1 and 2. The MDSC Resettlement Expert and Social Development &Gender Specialist are to oversee the implementation of Resettlement Plans by the INGO.

During approval of revised Development Project Proforma (RDPP) the ministry has cancelled appointment of ~~The PMU has yet to appointan~~ ADB-suggested Land Acquisition and Resettlement Officer (LARO) and two additional staff, ~~,~~another LARO, an Assistant to the LAROs ~~to assist PMU and in the huge task of land acquisition activities and also to assist affected persons in processing their claims. DWASA agreed to hire one~~one Surveyor cum Resettlement Coordinator. ~~in addition to these which is also yet to be appointed.~~

One Executive Engineer and two Assistant Engineers from PMU are responsible for overseeing and looking after the day-to-day safeguard activities. The Project Director, two Deputy Project Directors, and a Senior Water Supply Engineer are responsible for administering overall safeguards activities. The Senior Water Supply Engineer is yet to be appointed. This position is vacant since 2018.

The Management Design and Supervision Consultant (MDSC), led by Mott MacDonald Limited (UK)[30], is responsible for monitoring the implementation of the Resettlement Plans by INGO and assist the PMU in preparing the Semiannual Social Safeguard Monitoring Report.

With ADB's and government approval, DORP's contract has been extended further on 22 June 2021. DORP and DWASA have signed the contract. This contract will be valid up to June 2023.

DORP's Team Leader's position is vacant due to the resignation ~~ofthe~~l present Team Leader. DORP has to propose a replacement.

PMU and MDSC closely coordinate the works of DORP, the INGO. The major tasks of DORP are

- updating resettlement plans;
- conducting public consultations, Focus Group Discussions (FGDs), community meetings, and personal contact with the affected persons and communities for awareness building in affected persons;
- assessing resettlement impacts, collecting the market price of the loss of the properties, activities for making top-up payment and other resettlement assistance;
- skill training for livelihood restoration (LIRP) to the affected persons, livelihood monitoring, etc.

Comment [r53]: In the last SSMR it was mentioned: . It will be reported in next SSMR that during approval of revised Development Project Proforma (RDPP) the ministry has cancelled these two LAROs' positions.
Does this still hold ? Please reflect accordingly.

Comment [RA54]: Corrected, thanks.

[30] In association with Fichtner GmbH & Co. KG (GER), Euroconsult Mott MacDonald (Netherland), Yooshin Engineering Corporation (KOR), BCL Associates Limited (Bangladesh), SARM Associates Limited (Bangladesh) and Associates for Development Services Limited (Bangladesh).

Monitoring Results – Findings

DWASA is preparing and submitting regularly two separate safeguards monitoring reports, i) on environmental safeguards (Semi-annual Environmental Monitoring Reppport - SEMR) and ii) on social safeguards (Semi-annual Social Safeguard Monitoring Reppport - SSMR), in compliance with paragraph 91 of subsection B 'Monitoring', section IX 'Performance, Monitoring, Evaluation, Reporting and Communication' of the ADB's Project ~~AdministrationManual~~Administration Manual (PAM). After securing ADB clearance, both these reports are published in DWASA and ADB websites (www.dwasa.org.bd; and www.adb.org.)

The reports follow the requirements of the PAM (ref Appendix 12 for the semi-annual environmental monitoring report, and Appendix 13 for the semi-annual social safeguards monitoring report).

Both the safeguard monitoring reports are presented in DESWSP quarterly reports. The following is the 2nd quarter's social safeguards monitoring report as a ready reference.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Compliance Status

ADB has approved the 13th SSMR on 6 April2022 and the same has been disclosed on DWASA and ADB websites (www.dwasa.org.bd and www.adb.org).

9.1 Compliance to relevant Loan Covenant

The following table presents the status of the covenants related to Social Safeguards of the Loan Agreement:

Table~~0~~9.1: Progress in training and income generation engagement

Covenant Description	Progress Status	Compliance Assessment
Involuntary Resettlement		
Schedule 5 Para 4 The Borrower and DWASA shall ensure, that all land and all rights-of-way required for the Project, and all Project facilities are made available to the Works contractor in accordance with the schedule agreed under the related Works contract and all land acquisition and resettlement activities are implemented in compliance with		
(a) all applicable laws and regulations of the Borrower relating to land acquisition and involuntary resettlement;	A section-wise approach is adopted for land acquisition and compensation payments, to ensure that all affected persons get payment prior to handing over encumbrance-free land to the contractor.	Complied
(b) Involuntary Resettlement Safeguards; and	As above	Complied
(c) all measures and requirements set forth in the RP, and any corrective or preventative actions set forth in any Safeguards Monitoring Report.	As above	Complied
Schedule 5 Para 5 Without limiting the application of the Involuntary Resettlement Safeguards or the RP, the Borrower and DWASA shall ensure that no physical or economic displacement takes place in connection with the Project until:		
(a) compensation and other entitlements, as relevant, have been provided to affected people in accordance with the RP; and	Works in progress	Complied
(b) a comprehensive income and livelihood restoration program has been established in accordance with the RP.	Works in progress	Complied
Human and Financial Resources to Implement Safeguards Requirements		
Schedule 5 Para 6 The Borrower and DWASA shall make available necessary budgetary and human resources to fully implement the RP.	Amounts required for cash compensation under law are being transferred to the concerned Deputy Commissioner's office. Resources for the top-up payments and other resettlement benefits are available in DWASA's GoB account.	Complied
Safeguards - Related Provisions in Bidding Documents and Works Contracts		
Schedule 5 Para 7 The Borrower and DWASA shall ensure that all bidding		

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

documents and contracts for Works contain provisions that require contractors to:		
(a) comply with the measures relevant to the contractor as set forth in the RP (to the extent they concern impacts on affected people during construction), and any corrective or preventative actions set forth in a Safeguards Monitoring Report;	Contractor has been made aware that any impact due to construction will suitably mitigated by the contractor.	Complied
(b) make available a budget for all such social measures;	Available	Complied
(c) provide the Borrower and DWASA with a written notice of any unanticipated resettlement or small ethnic community peoples risks or impacts that arise during construction, implementation or operation of the Project that were not considered in the RP;	As required. There are no small ethnic community identified.	Complied
(d) adequately record the condition of roads, agricultural land and other infrastructure prior to starting to transport materials and construction; and	Recorded	Complied
(e) fully reinstate pathways, other local infrastructure, and agricultural land to at least their pre-project condition upon the completion of construction.	Works in progress	Complied
Safeguards Monitoring and Reporting		
Schedule 5 Para 8 The Borrower shall do the following or cause DWASA to do the following:		
(a) submit semiannual Safeguards Monitoring Reports to ADB and disclose relevant information from such reports to affected persons promptly upon submission;	SSMRs are being submitted and disclosed on PMU and ADB websites	Complied
(b) if any unanticipated social risks and impacts arise during construction, implementation or operation of the Project that were not considered in the RP, promptly inform ADB of the occurrence of such risks or impacts, with detailed description of the event and proposed corrective action plan in accordance with the SPS; and	No risk identified	Complied
(c) report any actual or potential breach of compliance with the measures and requirements set forth in the RP promptly after becoming aware of the breach.	No breach of compliance identified yet	Complied
Schedule 5 Para 9 The Borrower shall ensure that no proceeds of the Loan are used to finance any activity included in the list of prohibited investment activities provided in Appendix 5 of the SPS.	Complied	Complied
Grievance Redress Mechanism		
Schedule 5 Paragraph 15 Within 6 months of effectiveness date, the Borrower shall establish and maintain a grievance redress committee with representation from all stakeholders in the Project facilities for the purpose of addressing any grievances, from affected peoples concerning land acquisition, environment, and any other social issues, in a timely manner.	GRCs are formed at PMU and the community level in each Union/ Pourashava level, wherever resettlement activities kick-started, with representatives from the DWASA, local elected representatives from the Local Government Institutions (LGI), INGO, affected person representatives, women affected persons.	Complied
Social Covenants		
Labor Standards		
Schedule 5 Para 16 The Borrower and DWASA shall ensure that		

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

(a) civil works contractors comply with all applicable labor laws and regulations of the Borrower, do not allow employment of child labor for construction and maintenance activities, encourage the employment of the poor, particularly women, and provide appropriate facilities for women and children in construction campsites, disseminate information on sexually transmitted diseases (including HIV/AIDS) and human trafficking to employees and local communities surrounding the project construction sites;	These conditions are included in the DBO Contract documents, P2, P3.1 and P3.2. DWASA regularly reports compliance with these conditions.	Complied
(b) people directly affected by the Project are given priority to be employed by the Project;	Affected persons are being given priority for employment depending on their willingness and skills.	Complied
(c) contractors do not differentiate wages between men and women for work of equal value; and	This condition is included in the DBO,P2, P3.1 and P3.2 Contract documents. DWASA regularly reports compliance with condition.	Complied
(d) specific clauses ensuring these are included in bidding documents.	This loan covenant is included in the DBO, P2, P3.1 and P3.2 Contract documents.	Complied
Gender Action Plan		
Schedule 5. Para 17. The Borrower and DWASA shall ensure that the GAP is effectively implemented to achieve its objectives in a timely manner over the entire Project period, and that adequate resources are allocated for this purpose.	GAP monitoring reports are regularly submitted to ADB.	Complied

Follow up Actions, Recommendations, and Disclosure

The section-wise implementation of resettlement plans is going on along with simultaneous updating of the same as explained in earlier sections. However, some outstanding issues need to be resolved in expediting the lands to be ready for the start of civil works in time as soon as the contractor(s) are appointed. Several meetings have been held among PMU, DORP, and MDSC to ensure timely implementation of resettlement plans. The following actions are in place and/ or recommended for actions by the project development partners.

Table010.1: Follow up actions, recommendations, and disclosure

Outstanding Issues	Recommendation/Required Actions
Concurrence on DDR which is prepared for part of Resettlement Plan 3 under LA Case 5/2018-19	DWASA has submitted a DDR for LA case 5/2018-19 to get concurrence from ADB to start civil works in part of Resettlement Plan 3 under P1. It is essential to obtain concurrence to get rid of huge monetary compensation claim from the contractor.
	Follow up needed for approval.
Approval of updated Resettlement Plan for Section 2	Resettlement Plan has been submitted with Due Diligence Record (DDR) to ADB
	Follow up needed for approval.
Approval of Resettlement Plan for Section 5.	Revised Resettlement Plan has been submitted to ADB.
	Follow up needed for approval.
Handover of Land under LA Case 10/2018-19 (part of Resettlement Plan 3 and 5)	Deputy Commissioner started CCL payment on 1 March 2022 for part of P1 and part P2 area. As per law Deputy Commissioner should handover the land to DWASA by May 2022. But they are yet to handover the land to PMU. Land handover is very urgent for the contractors.
	PMU needs to follow up with Deputy Commissioner's office. Multiple meetings will be arranged with the Ministry of Land and Deputy Commissioner to expedite land acquisition and handing over land
Issuance of LA notice under 8(3)(ka) for CCL payment	Deputy Commissioner needs to issue notice to the affected persons for CCL payment in RP Section 5 and 6. Contractor is waiting to get encumbrance free landas a part of their contract with DWASA. If they do not get these lands by August 2022 a huge compensation claim will be submitted to PMU which will be a huge loss for the project.
	PMU needs to follow up with the Deputy Commissioner's office to give CCL to the affected persons and hand over the land as fast as possible. Multiple meetings will be arranged with the Ministry of Land and Deputy Commissioner to expedite land acquisition and handing over land
Submission of CCL estimate (part of section 5) by Deputy Commissioner) to DWASA	Submission of estimate required for compensation payment in Section 5 (part).
	PMU to check with Deputy Commissioner's office for completion and submission of CCL estimate.
CCL payment to all affected persons	Affected persons need to be helped by the DORP more proactively in processing legal papers for getting CCL. In addition, with the assistance of respective Union Parishad (UP) representatives, support will be provided to those affected persons who have conflicts to resolve.
	Deputy Commissioner's office needs to be followed up in considering affected persons' problems and to facilitate payment.
Non-submission of necessary documents to Deputy Commissioner's Office by 42 individual affected persons (other than government land, court case and vested property) in all mouzas of Resettlement Section 2.	INGO to take proactive measures in convincing the affected persons, who are delaying in the submission of their land papers as the land handover is urgent in this section.
	DORP will follow up helping and motivating the affected persons.
Livelihood Restoration of affected persons	DORP needs to monitor the livelihood restoration activities of the affected persons who received training and post-training investment allowance.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

Outstanding Issues	Recommendation/Required Actions
	LIRP monitoring reports on Sections 1 and 2 need to be prepared. LIRP post-training monitoring report needs to be finalized.
Finalization of LIRP post-training monitoring report for Section 4	MDSC provided with comments on the Section 4 LIRP post-training follow-up monitoring report on 7th June 2020.
	DORP to finalize the report in compliance with MDSC comments.
LIRP post-training monitoring report of section 1	Report preparation is in progress.
	DORP to prepare the draft report and submit it to PMU and MDSC for review.
Performance of DORP	DORP should give training to PMU on operating the web-based database.
	DORP management should visit the field more often to ensure regular monitoring of the field activities related to the implementation of land acquisition and resettlement.
	PMU has assigned Mr. Mustafizur Rahman, Executive Engineer, and Mahrin Binte Islam, Assistant Engineer to supervise DORP activities on behalf of PMU.

11.2 Appendix: RAJUK letter on Land Use to DWASA_19-05-2022_English

RAJDHANI UNNAYAN KARTIPAKSHYA
RAJUK BHABAN, DHAKA.
www.rajuk.gov.bd

No. 25.39.0000.068.16.19-20- Stha: Date: 19.05.2022

Subject: Letter from RAJUK in resolving the issues ~~of complicacy~~ in line with the ADB requirements, which is arises particularly the land use and pipe laying by DWASA for Dhaka Environmentally Sustainable Water Supply Project (DESWSP) on the RAJUK project of Road widening from Madani Avenue to Balu River (Major road-5) and road construction (Major road-5ka) from Balu River to Shitalakshya River (1st phase).

Source: Memo No: 3917/project/1/Madani/ WASA, date- 06- 04-2022.

1. The project of Road widening from Madani Avenue to Balu River (Major road-5) and road construction (Major road-5ka) from Balu River to Shitalakshya River (1st phase) has been approved in the Executive Committee of the National Economic Council (ECNEC) meeting on 30 October 2018.The activities of the project has been started on 8 April 2019. The project will be ended on 30 June 2023 since the 1st revised Development Project Proforma (DPP) has been approved. At present the physical progress of the project is 75 percent.

2. As Road widening from Madani Avenue to Balu River (Major road-5) and road construction (Major road- 5 ka) from Balu River to Shitalakshya River (1st phase) project work and the pipe laying work of Dhaka Environmentally Sustainable Water Supply Project (DESWSP) are implementing in the same road, so, this is possible to complete the road widening and road construction work of the RAJUK project after pipe laying by ~~theDhaka~~the Dhaka Environmentally Sustainable Water Supply Project (DESWSP).

3. The project works under Dhaka Environmentally Sustainable Water Supply Project (DESWSP) needs to be completed within the project period of Madani Avenue, otherwise any damage of the road caused by pipe laying activities of the DESWS project by DWASA, the RAJUK will not be liable for this kind of reparation in anyway.

4. Therefore, it is requested by the order of authority to take necessary arrangements to accomplish both of the project (Madani Avenue and DWASA pipe laying) activities simultaneously within the project stipulated time/period, with a view to save the government money and people's sufferings.

Project Director DESWS Project Dhaka WASA, Dhaka	Date of sign- 19-05-2022 Md. Kaisar Project Director, Madani Avenue Project Rajdhani Unnayan Kartipakhhya, Dhaka

Comment [SGB57]: There is no such word. Is the reference to complication?

Comment [RA58]: Deleted

Comment [SGB59]: Please note that the road alignment without black topping has to be demarcated by RAJUK first. Only then DWASA can undertake pipe laying on the demarcated alignment. This will be followed by black topping. So it is not simultaneous. Please make this clear to RAJUK and include appropriate minutes of meeting and explanatory footnotes. This letter proposing simultaneous works does not follow ADB requirements.

Comment [RA60]: Noted. DWASA PMU will discuss with RAJUK

11.4 Appendix: PVAC Meeting Minutes on Resettlement Plan Section 3+5+6 held on16-02-2022_English

Minutes of Meeting of Property Valuation Advisory Committee (PVAC)
Dhaka Environmentally Sustainable Water Supply Project (DESWSP), DhakaWASA
Organized by Water Supply and Sewerage Authority Dhaka under the Ministry of Local Government Rural Development and Cooperatives (MLGRDC)

Committee formed under the Memo No. 46.00.0000.085.006.062.2017-831 date: 27-11-2017

Meeting Proceedings of Property Valuation Advisory Committee (PVAC), LA case-10/2018-19

Date: 16.02.2022
Time: 11.30 am

Meeting Venue: Conference room of DESWSP, WASA Bhaban, Dhaka.

Agenda:

(a) Determination of the current market value/price of different types of land and decision on finalizing the rate;
(b) Finalizing the market value/price of affected structures and trees including RAJUK approved land and the land provided by BWDB to WASA using for pipe laying;

Name and Designation of the attendees:

1. Mr. Bahrul Islam, Superintending Engineer, and Project Director, DESWSP, Dhaka WASA;
2. Mr. Mostafizur Rahman, Executive Engineer, DESWSP, Dhaka WASA and Convener of the PVAC Committee
3. Dr. Nur Jahan, Deputy Director, Department of Agricultural Extension, Narayanganj, Nominated Representative and Member of the Committee;
4. Mr. Meghnad Nandi, Sub Divisional Engineer, Public Works Department, Narayanganj. Nominated Representative and Member of the Committee;
5. Mr. Abu Munna, Officer In charge, Social Forestry, Nursery, Forest Department, Narayanganj, Nominated Representative and Member of the Committee;
6. Dr. Rafeza Akter, National Resettlement Expert, MDSC, DESWSP, Nominated Representative and Member of the Committee;
7. Mr. Tofazzal Hossain, Safeguard Officer (Social/Gender), DESWSP, Dhaka WASA and Member of the Committee;
8. Mr. Rafiqul Islam, Councillor, Tarabo Poroshava-1, Rupganj, Narayanganj and Member PVAC;
9. Mr. Jashimuddin Bhuiyan, Councilor, Tarabo Poroshava-2, Rupganj, Narayanganj and Member PVAC;
10. Mr. Rasel Sikder, Councilor, Tarabo Poroshava-3, Rupganj, Narayanganj and Member PVAC;
11. Mr. Bazlur Rahman, UP Member and panel Chaiman, Kayetpara Unoin Parishad and member PVAC;

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

12. Mr. Ashraf Ali, Sub Assistant Engineer, DESWSP, Dhaka WASA;
13. Mr. Joynal Hossain Prodhan, local residential people, Rupganj, Narayanganj;
14. Md. Saidur Rahman, Area Manager, DORP, DESWSP, Rupganj, Narayanganj.

Opening Speech:

Mr. Bahrul Islam, Superintending Engineer, and the Project Director, DESWSP, Dhaka WASA presided over the meeting. At the beginning of the meeting, he expressed his greetings to all of the meeting participants and started the meeting proceedings. Government of Bangladesh and Dhaka WASA is implementing a mega project named Dhaka Environmentally Sustainable Water Supply Project (DESWSP). He said that through the project 500 MLD raw water will be pumped from the river Meghna (Intake Point) at Bishnandi of Araihajar Upazila under District Narayanganj and will be delivered to the proposed Water Treatment Plant of Dhaka WASA's own land at Gandharbpur of Rupganj Upazila of Narayangonj district. The treated purified water then will be supplied to the Injection Point at Baridhara near American Embassy. The treated water then will be distributed to the different places of Dhaka city. He further added that for the greater interest of the public, and smooth implementation of this project necessary requisite land has been acquired. For smooth and rapid operation of the activities, sufficient mitigation measures in the resettlement plan have been undertaken. For better facilitating of the activities, an implementing NGO (Development Organisation of the Rural Poor) is assisting the project in achieving the goal.

He added that usually, during the time of land selling and purchasing the affected persons show less value in registered deeds which is much lower than the actual market price of the land. Subsequently, when their land is acquired, they have to receive compensation from Deputy Commissioner's office at the government fixed rate, which is also lower than the actual market price/value of the land. The PVAC originated with an aim to ensure the actual market price for the project affected persons, to ensure ~~so~~ that they do not incur ~~become~~ loss~~er~~. Hence, the main task of the 'Property Valuation Advisory Committee' is to determine the actual market value of the project acquired land and other affected assets through verifying documents and conducting physical survey. In today's meeting the decision on land rate per decimal of the project acquired land from section-3 and partly of section-5 under LA case 10/18-19 of mouza Vulta, Karnogope, Tetlab, Noagaon, Gandharbpur, Brammangaon, Shibganj, Harinagram under RupganjUpazila will be determined and finalized. Besides, ~~with a~~also ~~view~~ to compensate ~~to~~ the affected persons the market value of affected structures and trees of RAJUK approved land and l~~L~~and handed over to DWASA by BWDB for us~~e~~ing in pipe laying ~~purpose~~ under section-3 and section-6.

Introducing Session:

The Chair requested the participants to ~~get~~ introduce themselves~~each other~~. In response to the request of the chair of the meeting the participants introduced themselves. ~~each other~~.

Speech on Topics Focused:

After introductory session Mr. Mostafijur Rahman, Executive Engineer and Convener of the meeting said that government of Bangladesh and Dhaka WASA is implementing a mega project named Dhaka Environmentally Sustainable Water Supply Project (DESWSP). He said that through the project raw water will be pumped from the river Meghna at Bishnandi point of Araihajar Upazila under District Narayanganj and will be delivered to the proposed Water Treatment Plant of Dhaka

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

WASA's own land at Gandharbpur of Rupgonj Upazila of Narayangonj district. The treated water then will be distributed to the different places (Gulshan, Banani, Badda, Mahakhali, Mirpur, Uttara etc,) of Dhaka city dwellers. He further added that requisite 37.70 acres of land is acquired for section-3 and BWDB has handed over 24.750 acres of land out of 88.58 acres of land. ~~By this time, A~~a MOU has been signed between BWDB and DWASA. Road digging permission has been provided to DWASA by RAJUK for pipe laying in section-6 area of the project. As the project is being implementing with the financial support of Asian Development Bank (ADB), European Investment Bank (EIB) and Agence Francaise De Development (AFD) of the project, hence the project has obligation to implement the project according to the Resettlement Plan (RP). In implementing the Resettlement Plan the affected persons by the project intervention are supposed to be compensated at the fair current market value on affected assets which are to be determined and provided to the affected persons as per their entitlements. In this regard, the Member Secretary of the Committee has collected a price list on affected assets from concerned Departments (PWD, Social Forestry and Agriculture Extension Department).

Dr. Rafeza Akter (National Resettlement Expert), Management Design and Supervision Consultant (MDSC), and Member PVAC told that the owners of the project acquired properties by no means will receive less compensation than the present market price. For this purpose, with the support of PMU the implementing non-governmental Organisation DORP has conducted a survey and collected information on current market value of land sale and purchase from different class of people. The PVAC will fix the actual current market value of land by considering and comparing the land value collected by INGO through survey and land value determined by Deputy Commissioner's office.

The Project Director instructed Mr. Ashraf Ali, Sub-Divisional Engineer, DESWSP, DWASA and Md. Saidur Rahman, Area Manager, DORP, Rupganj, and Member Secretary of the Property Valuation Advisory Committee (PVAC), DESWSP to present the current market value of the land as per classification and mouza.

Agenda Wise Discussions and Decisions:

In response to the request of the Project Director and Chair of the meeting, Mr. Asraf Ali, Sub Divisional Engineer, DESWSP, DWASA presented before the participants that for the implementation of the project an area of 37.70 acres of land is being acquir~~ed~~ing by DWASA from 8 *Mouzas (7 mouzas from Resettlement Section 3 and 1 mouza* from *Resettlement Section 5)* of Rupganj Upazila under LA case 10/2018-2019. In this respect necessary activities are ongoing as per the Resettlement Plan (RP). For smooth and easy implementation of resettlement plan the activities under Rupganj Upazila and Vatara has been divided into 3 sections such as section-3 and section-5 under Rupganj Upazila and activities of section-6 under Dhaka District. ~~However, l~~In today's meeting a comparative scenario of the land market price which has been assessed by the Deputy Commissioner's office on different types of land from 8 different Mouzas (Vulta, Karnagope, Tetlab, Noagaon, Brammongaon, Shibganj and Harinagram) are furnished below list1:

1. Per decimal land price list of current market value and Deputy Commissioner's office

Following decisions taken based on the opinions of the Committee:

Decisions and discussions of agenda (Ka)

1. Mr. Meghnad Nandi, Sub Divisional Engineer, Public Works Department and nominated representative and member of the PVAC told that after scrutiny of the submitted price list it transpired that the land rate determined by Deputy Commissioner's office is less than the actual market price in some certain types of land almost in all mouzas. Such as, the project affected persons under Vulta mouza will receive compensation for commercial type of land rate/decimal BDT 3, 00,000 (Three lac) less from Deputy Commissioner's office. If the affected persons receive less compensation amount he/she ~~there has been~~ will be ~~possibility to be~~ financially ~~loser by the project affected persons~~impacted~~.~~. Based on the discussions the Project Director said that the commercial type of land rate is comparatively higher than the other types of land, so, the per decimal land rate of commercial type can be fixed at BDT 12,72,756.

2. Mr. Rasel Sikder, Councilor, Tarabo Pourashava, Ward # 3, told that the compensation from Deputy Commissioner's office per decimal ~~–~~doba (ditch) type land value of Vulta mouza is less by ~~-~~BDT 1,37,874 (BDT One Lac Thirty~~-~~s~~S~~even Thousand Eight Hundred Seventy Four) than the current market value. He further added that in this mouza the sale and purchase price of doba type land is higher. He proposed to increase per decimal doba land value at the rate of 3, 00,000 (Three Lac). With a unanimous consent the per decimal doba type land value increased to BDT 3, 00,000 (Three Lac) from 1, 37 874 (One Lac Thirty~~-~~Seven Thousand Eight Hundred Seventy~~-~~F~~f~~our).

3. Mr. Rasel Sikder, Councilor, Tarabo Pourashava, Ward # 3, told that per decimal sale and purchase value of doba (ditch) type land value of Kanrnagop mouza is higher than the compensation paid by~~–~~ Deputy Commissioner's office. So, he proposed to increase the per decimal doba type land equal to the current market price. Further he added that Deputy Commissioner's office is paying lower value for per decimal nall type land of Tetlabo mouza than the current market value. The price per decimal nall land of Tetlabo mouza is much higher than the rate paying by Deputy Commissioner's office, just because of its road side location. So, with the consent of the Committee Members the doba type land value of Karnagop increased from BDT 1,81,395 to BDT 3,00,000 (Three Lac) and nall land of Tetlabo mouza increased from BDT 2,27,338 to BDT 7,00,000 (Seven Lac).

4. Mr. Jasimuddin Bhuiyan, Councilor, Tarabo Pourashava, Ward # 2 told that the doba (ditch) type land of Noagaon mouza situated at the road side and the compensation per decimal doba (ditch) type land at the rate of BDT 1, 16,880 (One lac sixteen thousand~~s~~ eight hundred eighty) will be paid by Deputy Commissioner's office, which is lower than the current market value. The actual sale and purchase value of the land is higher. So, he proposed in the meeting to increase the land value at least equal to the current market value so that they are not deprived. All the committee members gave their consent to increase the per decimal land doba (ditch) land value from BDT 2, 83,120 (Two lac eighty~~-~~ three thousand one hundred twenty) to BDT 4, 00,000 (Four lac)~~.~~ The rate was approved by the committee in the meeting.

5. Mr. Md. Rafiqul Islam, Councilor, Tarabo Pourashava, Ward # 1, told that unless per decimal doba (ditch) land values are not increased, the project affected people of Gandharbpur mouza will be losers. Based on his opinion the other committee members decided to increase the per decimal doba type land value of Gandharbpur mouza at BDT 4, 00,000 (Four lac) from BDT 1, 27,000 (One lac twenty--seven thousand).

6. Mr. Md. Ashraf Ali, Sub- ~~divisional~~Assistant Engineer, DESWSP, Dhaka WASA said that the Deputy Commissioner's office compensating per decimal home land of Brammongaonmouza less than the sale and purchase value of the locality. He proposed to increase the land value of this mouza. Based on his proposal Mr. Meghnad Nandi, Sub Divisional Engineer, Public Works Department and nominated representative and member of the PVAC told that compensation of per decimal land value of Brammongaon and Shibganj mouza is being given less by Deputy Commissioner's office than current market value. So, he ~~also~~ proposed to increase per decimal land value for both of the mouzas. All the committee members also opined to increase the per decimal land value for both of the mozas. With a unanimous opinion per decimal homestead land of Brammongaon mouza has been increased to BDT 8, 50,000 (Eight lac fifty thousand) which is per decimal increased by BDT 3,238 (Three thousand two hundred thirty-eight) only. For Shibganj mouza per decimal house land increased to BDT 9, 00,000 (Nine lac), per decimal increased rate is BDT 53,238 (Fifty-three thousand two hundred thirty-eight) only, per decimal viti (homestead) land increased to 9, 00,000 (Nine lac), per decimal increased rate is BDT 90,816 (Ninety thousand eight hundred sixteen) only. Accordingly, per decimal commercial type of land of Brammongaon mouza decided to increase at BDT 10,80,000 (Ten lac eighty thousand) from BDT 2,70,813 (Two lac seventy thousand eight hundred thirteen) only.

7. Mr. Bazlur Rahman, Union Parishad Member and panel Chairman of Kayetpara Union Parishad told that per decimal house and nall land value has been fixed 4, 65,900 (Four lac sixty-five thousand) and 1, 69,734 (One lac sixty-nine thousand seven hundred thirty-four) by Deputy Commissioner's office, which is lower than the current market value. He said that unless the two types of land value in Harinagram mouza are not increased, the project affected people of his area will be losers. He proposed per decimal house type land value to increase at the current market rate from BDT 4, 65,900 (Four lac sixty-five thousand) to BDT 15, 00,000 (Fifteen lac), and per decimal nall type land value from BDT 1, 69,734 (One lac sixty-nine thousand seven hundred thirty-four) to BDT 9, 00,000 (Nine lac). Based on his proposal the committee members increased per decimal house land of Harinagram mouza at BDT10,34,100 (Ten lac thirty-four thousand one hundred) on the rate fixed by Deputy Commissioner's office and determined per decimal house land at BDT 15,00,000 (Fifteen lac). In the same way, the committee members increased per decimal nall land of Harinagram mouza at BDT 7,30,266 (Seven lac thirty thousand two hundred sixty-six) on the rate fixed by Deputy Commissioner's office and determined per decimal nall land at BDT 9,00,000 (Nine lac).

Decisions and discussions of agenda (Kha)

8. ——Resettlement Expert, MDSC and member of PVAC said that the concerned government department has the information on the value of the assets and price lists. These rate will be considered in determining~~ation of~~ the compensation rate for structures and trees existing~~ed~~ on the RAJUK land for road cutting , (which will be permitted by RAJUK to use the land for pipe laying) and for the already handed over land by BWDB to DWASA for constructing pipe line. ~~She said that the concerned Department has collected the value of the assets and prepared price lists. She said that t~~The project can dis~~burse~~tribute resettlement assistance~~benefits~~ for the affected assets based on the price lists prepared by the concerned government department.

i) All the meeting attendants gave consent on the proposal;

Comment [r61]: Who ?Mention designation

Comment [RA62]: Mentioned

Comment [r63]: Please rewrite

Comment [RA64]: Rewritten

Comment [r65]: Who ?Mention designation

Comment [RA66]: Mentioned

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

ii) The Convener of the meeting Mr. Mostafijur Rahman, Executive Engineer, DESWSP, DWASA said that since the assets price lists prepared by the concerned departments are updated one and ~~there is founda~~ similarity is found ~~-~~between the current market price with the affected assets. So, the project can use the lists in paying resettlement ~~benefits~~assistance ~~payment~~ to the affected non-title holders on the RAJUK permitted and the BWDB handed over land.

Comment [r67]: Land ? not clear

Comment [RA68]: Not land, structures, trees, business, etc. since all are non-titleholders on RAJUK and BWDB Land.

The list of increased land rate and the lists of current market price of the project affected assets (Structures and trees) on the handed over land to DWASA by RAJUK and BWDB which is prepared by the concerned Departments are furnished in the below list of - 2, 3 and 4.

2.The list of increased prices on land by the PVAC

Sl. No.	Name of *mouza*	Classification of land	Land area in decimal	Current market value per decimal	DC's fixed rate of land (in decimal)	Rate by including 200% premium (per decimal)	Difference value (per decimal)	Rate determined by PVAC
1.	Vulta	House (Homestead)	2.00	6,98,333	3,94,238	11,82,714	- 4,84,381	11,82,714

Dhaka Environmentally Sustainable Water Supply Project (DESWSP), Dhaka WASA
Memo Number: 46.113.618.00.00. G-168 (Vol/DESWSP)
Under the Ministry of Local Government Rural Development and Cooperatives (MLGRDC)
Committee formed under the Memo No. 46.00.0000.085.006.062.2017-831 date: 27-11-2017
Meeting Proceedings of Joint Verification Committee (JVC)

Date: 23.01.2022
Time: 10.00 AM

Meeting Venue: Conference room of DESWSP, WASA Bhaban Dhaka.

Agenda:

Discussions and decisions on payment of resettlement benefits to the project affected non-titleholders on the land handed over by BWDB to DWASA under Section-3.

Name and Designation of the meeting attendees:

1. Mr. Bahrul Islam, Superintending Engineer, and Deputy-project Director-1, DESWSP, Dhaka WASA;
2. Md. Mostafizur Rahman, Executive Engineer, DESWSP, Dhaka WASA and Convener of the JVC Committee;
3. Mr. MeghnadNandi,Sub Divisional Engineer, Public Works Department, Narayanganj, Nominated representative and Member, JVC;
4. Dr. Rafeza Akter, National Resettlement Expert, MDSC, DESWSP, Member of the JVC;
5. Jesmin Khanam Shahana, Team Leader (Acting), DORP, DESWSP;
6. Mr. Tofazzal Hossain, Safeguard Officer (Social & Gender), DESWSP, DWASA and Member JVC;
7. Mr. Ashraf Ali, Sub Assistant Engineer, DESWSP, Dhaka WASA;
8. Md. Rakibul Islam, Database Manager, DORP, DESWSP;
9. Md. Jahirul Islam, Database Manager, DORP, DESWSP;
10. Md. Saidur Rahman, Area Manager, DORP, DESWSP, Rupganj, Member Secretary, PVAC Committee.

Opening Speech and Discussions:

Md. Bahrul Islam, Superintending Engineer and Project Director of DESWSP, Dhaka WASA~~. He~~ chaired the meeting. The chair welcomed the participants of JVC meeting and started the meeting proceedings. He said that through the project a 500 million liters (MLD) raw water will be pumped from the river Meghna at Bishnandi (Intake Point) of AraihajarUpazila and will be delivered to the proposed Water Treatment Plant of Dhaka WASA own land at Gandharbpur of RupganjUpazila under Narayangonj District. The treated water then will be supplied to the different places of Dhaka city. He added that for the greater interest of the public the necessary land has been acquired for the project. For smooth and easy implementation of this project sufficient resettlement measurement activities has been taken up. For speeding up of the project activities an expert Implementing Non-Government Organization (DORP) is working in the project. By this time, an MOU for using of this land for the purpose of laying RAW and Treated Water pipeline in the project has been signed between BWDB and Dhaka WASA.

The Convener of the JVC Committee Md. Mostafizur Rahman, Executive Engineer, DESWSP, Dhaka WASA said that 10 mouzas (Golakandaile, Vulta, Tetlab, Nursing-Gole, Gandharbpur, Karnagop, Deboy, Noagaon, Shibganj, and Brammongaon) under Section-3 of Rupganj Upazila

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

an area of 24.8750 acres of land out of 88.58 acres BWDB acquired land has been handed over to Dhaka WASA by BWDB for installation of pipelines. The DESWS project is being implementing with financial (Loan) assistance of Asian Development Bank (ADB). So, the project has obligation to abide by the Safeguard Policy in making compensation payment to the project affected Agriculture farmers, Fishermen, owner of the structures and businessmen on the BWDB handed over land to Dhaka WASA. With a view to follow the ADB safeguard policy the members of the Joint Verification Committee (JVC) prepared a project affected person's list through paying a physical visit and scrutinizing. He requested Member Secretary of the Joint Verification Committee to explain and present the list before the meeting participants.

In response to the request of Project Director Md. Saidur Rahman, Area Manager, DORP, DESWSP and Member Secretary of JVC presented the list before the meeting participants. He informed the meeting participants that through the field checking by the JVC members it was identified 53 persons as project affected. A total of ~~Also, there were identified~~ 4 residential structures, 5 commercial/business structures, two (2) electric sub-station, a kitchen house of a Madrasha and guide wall, Boundary walls of Nine (9) Institutions, twenty (20) fish farms, a number of 1,740 trees of different sizes (big, medium and small) and cultivated crops on 0.69 acres of land will be affected by the project intervention.

Besides, in 24.8750 acres of BWDB handed over land to DWASA there are fish farms on 8.34 acres of land and on 2.57 acres of land identified structures, trees and crops, which will also be affected by the project intervention.

Dr. Rafeza Akter (National Resettlement Expert), MDSC, said that those have structures, trees, cultivated crops and cultivated fish will be affected by the project intervention will be compensated as per the rate determined by the Property Valuation Advisory Committee (PVAC). She further added that those are running business on the land that been surveyed by the JVC, will receive compensations based on monthly income ~~from business for 6 months of business loss~~ according to the entitlement matrix of the project and soon will be able to re-open their business.

Comment [SGB71]: Are these already covered in any particular RP? Or will any RP need to be updated to reflect these impacts? Please provide an explanatory note below or anywhere in the main report.

Comment [RA72]: Corrected, thanks

Decisions:

In the meeting, it was decided unanimously by the committee members dated 23-01-2022 to compensate 53 project affected persons.

The list of 53 project affected persons identified through conducting a physical field verification by the JVC is attached with detail descriptions of loss.

Having no any other agenda for discussion the convener of the meeting ended the meeting with thanks to the Participants.

Md. Saidur Rahman
Area Manager (Acting)
DORP,DESWSP, and
Member Secretary JVC

Md. Tofazzal Hossain
Safe Guard Officer (Social &Gender)
Member JVC, Dhaka WASA

Dr. Rafeza Akter
National Resettlement Expert
MDSC, DESWSP, DWASA
Member JVC Dhaka WASA

Meghnad Nandi
Subdivisional Engineer
Public Works Department, Narayanganj
Member of the JVC.

Md. Mostafizur Rahman
Executive Engineer,
DESWSP, Dhaka, WASA,
And Convener of JVC.

Dhaka Environmentally Sustainable Water Supply Project (DESWSP), Dhaka WASA

Memo Number: 46.113.618.00.00. G-168 (Vol/DESWSP)
Under the Ministry of Local Government Rural Development and Cooperatives (MLGRDC)
Committee formed under the Memo No. 46.00.0000.085.006.062.2017-831 date: 27-11-2017
Meeting Proceedings of Joint Verification Committee (JVC)

Date: 03.01.2022
Time: 10.30 am

Meeting Venue: Conference room of DESWSP, WASA Bhaban Dhaka

Discussing Agenda: Discussions and decisions on payment of resettlement benefits to the project affected non-titleholders within the project alignment of section-6 (Madani Avenue)

Name and Designation of the meeting attendees:

1. Md. Mahmudul Islam, Superintending Engineer, and Project Director of DESWSP, Chief Resettlement Officer;
2. Mr. Bahrul Islam, Superintending Engineer, and Deputy-project Director-1, DESWSP, Dhaka WASA and Convener of the PVAC Committee;
3. Md. Mostafizur Rahman, Executive Engineer, DESWSP, Dhaka WASA;
4. Dr. Rafeza Akter, National Resettlement Expert, MDSC, DESWSP, Member of the PVAC Committee;
5. Jesmin Khanam Shahana, Team Leader (Acting), DORP, DESWSP;
6. Mr. Tofazzal Hossain, Safeguard Officer (Social/Gender), DESWSP, Dhaka WASA, Member of the PVAC Committee;
7. Mr. Ashraf Ali, Sub Assistant Engineer, DESWSP, Dhaka WASA;
8. Md. Rakibul Islam, Database Manager, DORP, DESWSP;
9. Md. Shah Alam, Area Manager, DORP, DESWSP, Rupganj, Narayangonj. Member Secretary of JVC;
10. Md. Saidur Rahman, Resettlement Organizer, DORP, DESWSP, Rupganj.

Opening Speech and Discussions:

The meeting was chaired by the Project Director, Md. Mahmudul Islam, Superintending Engineer and Project Director of DESWSP, Dhaka WASA. The chair of the meeting welcomed and shared the New Year greetings ~~to~~ withthe participants. At the beginning of the meeting, he presented~~described~~ a ~~synopsis~~ descriptionof the DESWS project to the participants.

The Chairperson stated that the Government of Bangladesh and Dhaka WASA is implementing a mega project named Dhaka Environmentally Sustainable Water Supply Project (DESWSP). He said that through the project a 500 million liters (MLD) raw water will be pumped from the river Meghna at Bishnandi (Intake Point) of AraihajarUpazila and will be delivered to the proposed Water Treatment Plant of Dhaka WASA own land at Gandharbpur in RupganjUpazila of Narayangonj district. The treated water then will be sent to the Dhaka Baridhara Injection point with a view to supply the purified water to the different places of Dhaka city dwellers through the distribution pipe lines. He added that for the greater interest of the public the necessary land has been acquired for the project for smooth and easy implementation of this project. For speeding up of the project activities an expert Implementing Non-Government Organization (DORP) is being

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

working in the project. A resettlement plan has been prepared with an aim to compensate resettlement benefits to those non-titled affected persons and employees. After paying a physical visit to the alignment area of two mouzas (Vatara and satarkul) under section-6, which have been handed over to Dhaka WASA by RAJUK. It was observed that ~~there~~ on the RAJUK handed over land the~~oscare~~ owners of the structures/business and the employees who are working, will be paid compensation. Based on the field verification and scrutinized by the Joint Verification Committee, members prepared and presented a list.

With the request of Project Director Ms. Jesmin Shahana, Team Leader (Acting) presented the list before the meeting. She informed ~~to~~ the meeting participants that through the field checking by the JVC members it was found 28 non-titleholders affected persons are running different types of business by constructing structures on the RAJUK handed over land. ~~There were~~It was also found that only 5 employees are working in the affected businesses.

Dr. Rafeza Akter (National Resettlement Expert), MDSC, told that those have been doing business on Nursery, Tea stall, Restaurant and Fuchka shop for the last ≥6 months will be eligible for resettlement benefits 3 months of business loss as per entitlement matrix. She added that employees of these shops will be entitled to receive resettlement benefits of 3 months' salary based on the attendance registers and salary payment documents preserved by the shop owners.

Bahrul Islam, Superintending Engineer and Deputy Project Director, DESWSP told that at the time of compensation payment they will ~~be~~ be given notice~~d~~ to shift their business structures within 30 days of serving notice. He declared the compensation payment day to the non-titleholders starting from 12 January 2022.

After ~~paying~~ physical visit of the site on 03-01-2022 a meeting ~~held~~ of the Joint Verification Committee was held on the ~~very samedaysame day~~. In the meeting it was decided to compensate 28 business affected persons and 5 employees of Section-6 area. Based on the physical visit of the site a list of the affected business holders and employees are attached with this report.as table 1 and 2.

Having no any other agenda for discussion the chair concluded the meeting with thanks to the Participants.

Dhaka Environmentally Sustainable Water Supply Project (DESWSP) Semi-annual summary of the community meetings discussion Conducted by DORP Period: January to June 2022		
Key Issues of Discussion	**Participants Responses**	**Project Response**
	FromJanuarytoMarch- 2022a total number of **96** community meetings with a total of **1025** participants (M-**367**, F-**658)**wereheldintheprojectsite of Araihazar and Rupganj Area. The above **96** meetingswereheldin all the **6** sections during the reporting quarter. The section-wisedistributionofmeetingsandmeetingparticipantsisgivenbelow: - a.Inthesection-**1** total **12** meeting held with a total of **122** participants (Male-**36**,Female-**86)**; b.In the section-**2** total **24** meeting heldwithatotalof **250** participants (Male-**80**,Female-**170)**; c. In a section-**3** total **22** meeting were held with a total of **243** participants (Male-**90**,Female-**153)**; d.In a section-**4** total **12** meeting was held with a total of **131** participants (Male-**52**,Female-**79)**; e.Inthesection-**5** total**14** meetingheld with a total of **153** participants (Male-**62**,Female-**91)**; f.Inthesection-**6** total **12** meetingwasheld with a total of **124** participants (Male-**55**,Female-**69)**; **2** Consultation meetings held in this reporting period in section-3. Total participants – **135** (Male- **116**, Female-**19**). The following questions/queries were raised by the participants in the meetings: -	In reply to the query made by the meeting participants in the meeting, the following responses were made from the project: -
1. Papers required in receiving compensation from the Deputy Commissioner's office and additional payment/ resettlement benefits from DWASA.	1. The meeting participants wanted to know how they will receive their compensation money from the Deputy Commissioner's office and additional payment/other resettlement benefits from DWASA. They also wanted to know the kind of papers they will need to submit to the Deputy Commissioner's office for compensation and papers to be submitted to INGO DORP for receiving additional payment/other resettlement benefits. The participant wants to know what benefits they will get if they buy land elsewhere after getting LA notice under section 8(3)(ka).	1. The participants were informed in the meeting about ~~that~~ the ~~kind~~ types of papers they needed for receiving compensation from Deputy Commissioner's office. The papers~~is,~~are: Ownership document of the land, updated mutation, land tax receipt, national ID card, bank account number, etc. DORP will try its utmost so that payments are made fair and transparent. The INGO personnel assured the participants that they will guide them in collecting papers accordingly. In response to the query about papers to be collected for receiving additional payment and other resettlement benefits, the meeting participants were informed that they will receive additional payment according to the current market value and according to the project entitlement matrix. INGO

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

		DORP will assist/guide them in preparing/collecting necessary papers to be submitted to DWASA for receiving additional payment and other resettlement benefits. In this regard, they need to open an individual bank account. In response to the participant's question, they were informed that those who have already been received CCL from the Deputy Commissioner's office, all those papers along with the affected person's ID card, Photocopy of NID/SMART card, citizenship certificate from Union Parishad Chairman, or Pouroshava Chairman, account number, share sheet, etc. death certificate in case of death, the stamp of Rs. 300, etc. will be required. These required papers need to be submitted to DORP local office for payment of additional/resettlement benefits. After receiving the Section 7 notice, if affected persons purchase land elsewhere, they will get the money for the stamp cost of registering the land after CCL payment.
2. The affected persons want to know about the reason of taking so much time by Deputy Commissioner's office in processing papers for distributing CCL now-a-days.	2. The affected persons want to know why it takes so much paperwork for CCL payment now-a-days, and they want a list of the various ~~kind of~~ papers ~~is~~ needed in getting CCL.	2. On behalf of the project, DORP stated that the present Land Acquisition Officer (LAO) checks all the papers for CCL and if all papers are okay, he pays CCL as soon as possible. He asks for all papers together so that affected persons do not need to go to the Deputy Commissioner's office frequently. Sometimes Deputy Commissioner's office run out of adequate human resources. PMU is committed to take care the issue. PMU holds several meetings with Deputy Commissioner's office onthis issue so thatDeputy Commissioner's office takes lesser time in paying CCL. DORP provided a list of required papers for getting CCL to the affected persons.
3. Regarding Cultivation on acquired land.	3. Affected persons want to know that Dhaka WASA has not started work on some cropland which has been acquired by them. Affected persons wanted to know if they can cultivate those lands.	3. ~~According to the project,~~It ~~it~~ has been informed that the acquired land cannot be cultivated in any way. The contractor will start work at any time.
4. Regarding compensation for employees of Janata Dockyard, Rupganj	4. Dockyard Employees want to know that if Dhaka WASA acquired this land, employees may lose their jobs. What will be the compensation system and how much they will get?	4. On behalf of the project, it is said that if they lose job temporarily or permanently, they will get compensation from the project as per entitlement matrix. However, as per planning of dockyard authority, the employees may not be affected because dockyard authority will reemploy ~~those~~ themin ~~their own~~ another dockyard owned by them.

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

5. Discussion on non-paid CCL affected persons payment.	5. Affected persons who are yet to receive CCL want to know how to get money if it takes a long time to resolve their land issues.	5. The project informeds them that the CCL money is deposited in the Deputy Commissioner's Public Account of Republic as per estimated CCL amount of their land. The money that they will receive from Dhaka WASA in the future is also deposited in a separate dedicated account. Payment of their compensation is ensured.
6. Discussion on how affected persons will receive money if there is no NGO.	6. Potential affected persons want to know how to get money by submitting documents since it takes time to resolve their land issues. They have discussed how do they can get money if there is no NGO. Who will collect their documents and submit them to Dhaka WASA?	6. According to the project, if there is no NGO, they will get their dues by contacting Dhaka WASA directly. A unit will be opened in Dhaka WASA at Rupganj Water Treatment Plant site. Affected persons may submit their documents to that management unit.
7. Discussion about not getting land compensation yet	7. Affected persons want to know why they are not getting CCL from the Deputy Commissioner's office after submitting the necessary paper to the Deputy Commissioner's office.	7. On behalf of the project, it is said that INGO would help before submitting the document to the Deputy Commissioner's office such as whether all the documents are in order, what type of documents are required, etc. However, Deputy Commissioner's office follows its own course in paying CCL. Despite, PMU and Project Director are trying their best on behalf of the project so that the Deputy Commissioner's office pays this payment immediately. In addition, affected persons can contact the land office to get the CCL soon. If affected persons need any cooperation from the land office or anywhere else, then the project side/ DORP will extend their all cooperation.
8. Court Case related problem discussed	8. Affected persons wants to know what to do to get money if there is a case for land or infrastructure	8. In reply, on behalf of the project, INGO informed everyone that if there is a court case on the to be acquired/acquired land, it has to be settled. Affected persons will not receive any money until a settlement has been reached between the two parties. Rightful owners will receive compensation if the case has been settled.
9. The market value of the land in Section-5 is discussed	9. Affected persons stated the price of land that the Deputy Commissioner's office will pay is much less. It is not possible to buy land elsewhere with this money. So how do we buy land instead of this land?	9. In reply, on behalf of the project – it is wasinformed that all affected persons will get three times more than their mouza rate. In majority cases, Deputy Commissioner's rate is low because of the low cost of registration during buying or selling land. If the Deputy Commissioner's rate is less than market price, then DWASA will pay top up. So, the affected persons will be able to buy new land.

10. Discussion on LA notice under section 4(1) and joint verification	10. Affected persons wanteds to know why the category of land under LA notice Section 4(1) is not written properly. Same in the joint verification report also. They also want to know some land owners' affected persons names are missing in the LA notice under section 4(1) though they are actual owners of the land.	10. In reply, on behalf of the project, inform everyone that the reason for not having affected persons' names in the LA notice under section 4 (1) is that affected persons' names might not be included in the land record and mutation.
❖ 11. Discussion on training and borrowing.	11. Participants want to know if the project can provide a loan for the business after the training. If you take a loan from somewhere else, you have to pay a lot of interest.	11. Participants were informed that those who were harmed affectedby the project were compensated in the same way. Those who are very poor are given grants from this project, training is provided, and training allowance of tk. 20,000 is given at the end of the training. With this money, he will start a business. Even then, if the business needs more money, all the lenders will be contacted. So that they can take loans. There is no opportunity to give a loan for this project.
12. Investment of compensation, additional and other resettlement benefits inincome-generating activities;	12. In the meeting using compensation money and other benefits by the project affected persons were discussed. They have been informed that the compensation from the DC office and additional/resettlement benefits from DWASA made intending to invest the money in income-generating activities so that they can improve their economic status better compared to their present status. The participants showed their positivity to use the money in productive sectors. They committed to using their compensation money and resettlement benefits to re-start or re-establish their livelihoods activities at the previous level or better off compared to their previous life. The meeting participants requested DORP to guide them regarding spending the compensation money and other resettlement benefits properly.	12. In this regard the participants were informed that the money which they have received and are yet to be received as compensation and resettlement benefits will have to be used to re-establish and restart their livelihood so that they can bring a positive change in their lives or at least at the level of pre-project status. Affected persons were advised by the project personnel that due to the intervention of the project they have lost land, residential and business structures, crops, trees, and employment. So, these amounts of money are to be used in purchasing land, constructing structures, re-start businesses, and re-establishes livelihoods. They should not be using the compensation money/ resettlement benefits in unproductive ways,
13. Discuss the necessary paper required to obtain CCL and WTP Job opportunities.	13. Affected persons want to know - They can't talk to the people in the Deputy Commissioner's office about their problem, they are not well behaved with them. Some affected persons are willing to get job in WTP.	13. On behalf of the project, it is said that after receiving the LA notice under section 7(1), you will be submitted to the Deputy Commissioner's office with all your documents. Now if all the decisions are not final, they cannot say anything. On behalf of the project, it is said that many of you have lost their livelihood for the work of the project, because of which they have given you training on specific work. You can make a living by investing the money that has been given to you. Moreover, the project authority is also well concerned about giving the opportunity to be employed in project site based on competence.
14. Income generating work is being	14. The participants want to know, how they will be able to keep the income generating business afloat during the	14. Participants are advised to wear face masks when outdoors at all times, to keep soap in their place of business

hampered due to Covid-19. Many people have taken loans. How to repay the loan is the topic of discussion.	increase in Covid-19, which has beenforcing them to shutting down their business from time-to-time.started income-generating activities.	to wash themselves and the customer's hands so that everyone is germ-free, and to have a business distance of at least three feet at the time of sale. They are also told to keep their homes and workplaces clean with a little Dettol or soapy water if necessary. Because it will take a long time or even 2/3 years for the infection of COVID-19 to be eradicated from our country, it will not work if we do not work for this long time. So, everyone should follow the rules and continue their work from a safe distance.
15. Investment of compensation, additional and other resettlement benefits inincome-generating activities; .	15. In the meeting using compensation money and other benefits by the project affected persons were discussed. They have been informed that the compensation from the Deputy Commissioner's office and additional/resettlement benefits from DWASA made intending to invest the money in income-generating activities so that they can improve their economic status better compared to their present status. The participants showed their positivity to use the money in productive sectors. They committed to using their compensation money and resettlement benefits to re-start or re-establish their livelihoods activities at the previous level or better off compared to their previous life. The meeting participants requested DORP to guide them regarding spending the compensation money and other resettlement benefits properly.	15. In this regard the participants were informed that the money which they have received and are yet to be received as compensation and resettlement benefits will have to be used to re-establish and restart their livelihood so that they can bring a positive change in their lives or at least at the level of pre-project status. Affected persons were advised by the project personnel that due to the intervention of the project they have lost land, residential and business structures, crops, trees, and employment. So, these amounts of money are to be used in purchasing land, constructing structures, re-start businesses, and re-establishes livelihoods. They should not be using the compensation money/ resettlement benefits in unproductive ways.
16. Providing support to the ongoing/ensuing project construction work by the affected persons.	16. In the meeting, participants were requested to cooperate with the contractors during project construction work, especially by making free of the project acquired land by removing the structures, trees, etc. irrespective of those who have received resettlement benefits and those who did not receive yet due to problems with papers, ownership, shareholders, land record/mutation and court cases. The participants raised questions that they have been not yet been compensated for their lost properties, whether they will receive their payment earlier?	16. Regarding assisting in the project construction work the participants were informed that those who have received payment and those who did not receive paymentyet. Both the groups have been notified several times and requested verbally to let makethe land make freeencumbrance free by removing the structures for the smooth construction work as their land has already been acquired by the government for pipeline installation purposes. For those who did not receive payment yet, payment was delayed mostly due to legal problems and lack of mutation according to RS record, etc. So, as long as their problems will remain unsettled the compensation money will be kept safe in a separate account (Dedicated) opened for them and as soon as their problems will be solved, they could receive their payments. Ultimately the participants agreed to cooperate with the contractors during project

		construction work, especially by making ~~free of~~ the project acquired land encumbrance free.
17. Take away or remove the structures from the project-acquired land.	17. Based on discussions, the participants who have been paid fully and did not remove the structures were asked to remove the structures. On this ground, non-paid participants raised questions that whether they will be paid their compensation before shifting their structures. Unless they fully paid up, they will not shift their structures and will not make the project area free for project construction work. The participants said that all payments must be paid by the projects. Notification must be given to ~~conditioned that they must be cleared up of their dues and notified and~~ allow them a reasonable time for shifting, otherwise they will not hand over their land or remove their structures, etc.	17. In the meeting the participants were informed that those who have already fully paid have been notified several times (verbally and written) but did not remove structures yet. ~~and~~ Tthose who did not receive compensation yet from the Deputy Commissioner's office and resettlement benefits from DWASA due to legal issues and mutation problems their amount will be safely deposited to the Deputy Commissioner'soffice and DWASA as well in an account (Dedicated) opened separately for them. Being assured from the project side they agreed to shift their structures and to make the project area free for project construction work.
18. Serving notice under sections 7(1) and 8 (3) (ka) and commencement of payment.	18. In the meeting serving notice under section-7(1) and 8(3) (ka) were discussed for section-3 and 5. After serving notice under section 8(3) (ka) the affected persons will be ~~determined~~ identified and the payment process in the Deputy Commissioner'soffice will be started.	18. The meeting participants were informed that through serving the notice under section 8(3) (ka) in sections 5 and 6 the project affected persons will be identified and after that payment process will be started. F~~f~~or payment they will be notified by the Deputy Commissioner'soffice to receive compensation subject to submission of necessary documents against their ownership.

12. Md. Bayejit Khan Sabuz, applicant as an affected person

Introductory speech: Mr. Bahrul Islam, Superintending Engineer, and the Project Director, DESWSP, Dhaka WASA presided over the meeting. At the beginning of the meeting he expressed his greetings to all of the meeting participants and started the meeting proceedings. Government of Bangladesh and Dhaka WASA was is implementing a mega project named Dhaka Environmentally Sustainable Water Supply Project (DESWSP). He said that through the project 500 MLD raw water will be pumped from the river Meghna (Intake Point) at Bishnandiof AraihajarUpazila under District Narayanganj and will be delivered to the proposed Water Treatment Plant of Dhaka WASA's own land at Gandharbpur ofRupganjUpazila of Narayangonj district. The treatedwater then will be supplied to the Injection Point at Baridhara near American Embassy. The treated water then will be distributed to the different places of Dhaka city. He further added that for the greater interest of the public, and smooth implementation of this project necessary requisite land has been acquired. For smooth and rapid operation of the activities sufficient mitigation measuresin the resettlement plan has been undertaken. For better facilitating of the activities, an implementing NGO (Development Organisation of the Rural Poor) is assisting the project in achieving the goal.

Mr. Mostafizur Rahman, Executive Engineer, DESWS project, Dhaka WASA and convener of the GRC meeting requested the meeting participants to introduce themselves. Accordingly, the meeting participants introduced themselves. After completion of introducing session, Convener of the GRC meeting informed the participants that they might have been aware about that the Bangladesh government that is the Dhaka WASAis implementing a mega project namely "DhakaEnvironmentally Sustainable Water Supply Project (DESWSP)". As a result, the project

INTERNAL. This information is accessible to ADB Management and staff. It may be shared outside ADB with appropriate permission.

construction work of "Water Treatment Plant" is ongoing at Gandharbpur and Char Gandharbpur*mouzas* under section-4, with a view to quick distribution of the treated water to Dhaka city the pipe laying work has been undertaken onBWDB handed over land. During the time those did not receive compensation and applied to the GRC for compensation their papers against compensation claim will be verified. He requested Md. Saidur Rahman, Area Manager. DORP and Member Secretary of GRC to present the submitted applications and documents before the Members of the Grievance Redress Committee.

Md. Saidur Rahman, Area Manager. DORP and Member Secretary of GRC presented the applicants' applications and other documents in support of their claim before the meeting.

Mr. Mostafizur Rahman,Executive Engineer, DESWS project, Dhaka WASA and convener of the GRC requested the meeting participants that after scrutinizinged ~~of~~ their documents and subject to identification as project affected persons, they will be compensated as per project entitlement matrix. After making compensation for the loss of assets to the affected persons they were requested to shift their structures from the project acquired land quickly for making the land free for smooth construction work.

Decisions of the Grievance Redress Committee:

Sl. No.	Name of Complainant	Subject matter of complaint	Discussions and review	Decision (s)
1	Name: Md. Jahangir Alam Father: Late, Nurul Islam Gandharbpur, Uttarpara.	Application for receiving compensation for the loss of structures.	The Convener of the meeting wanted to know from applicant ~~that~~ when ~~did~~ he constructed the structures on the project affected land? In response, he told that he has constructed the structures before beginning of the construction work of "Water Treatment Plant". He also added that his house has been rented out before the construction work of Water Treatment Plant.	It was decided in the meeting that the applicant Md. Jahangir Alam will receive compensation as per Entitlement Matrix of the project against his affected house at the rate of BDT 232 per square feet for 22 feet length and 15 feet width (tin+tin+wood) structures.
2	Md. Sultan, Father: Sukkur Mahmud Village/ Char Gandharbpur.	Application for receiving compensation for the loss of income from business due to the project intervention.	The convener of the meeting wanted to know from applicant that how long he has been operating the business on the project affected land. In response, he told that he has been operating the business before beginning of the construction work of "Water Treatment Plant". He added that the income from the business is only the family income source for ~~defraying the cost of~~supporting his family.	It was been found out in the meeting that the applicant earns BDT 10,000 (Ten Thousand) per month from his business. GRC decided that he will be entitled to receive compensation equal to 3 months of business income for the loss of business income.
